

Vident Core U.S. Bond Strategy ETF[®] (VBND)
Vident Core U.S. Equity Fund[®] (VUSE)
Vident International Equity Fund[®] (VIDI)

Each a series of ETF Series Solutions

Listed on NYSE Arca, Inc.

STATEMENT OF ADDITIONAL INFORMATION

December 31, 2020

This Statement of Additional Information (“SAI”) is not a prospectus and should be read in conjunction with the prospectus dated December 31, 2020, as may be supplemented from time to time (“Prospectus”), of the Vident Core U.S. Bond Strategy ETF (“U.S. Bond Fund”), Vident Core U.S. Equity Fund (“U.S. Equity Fund”) and Vident International Equity Fund (“International Equity Fund”) (each, a “Fund” and, collectively, the “Funds”), each a series of ETF Series Solutions (the “Trust”). Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted.

A copy of the Prospectus may be obtained, without charge by calling 1-800-617-0004, visiting www.videntfunds.com, or writing to Vident Funds, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201.

The Funds’ audited financial statements for their most recent fiscal year are incorporated into this SAI by reference to the Funds’ Annual Report to Shareholders (File No. 811-22668). You may obtain a copy of the Funds’ Annual Report at no charge by request to the Funds at the address or phone number noted above.

GENERAL DESCRIPTION OF THE TRUST AND THE FUNDS

The Trust is an open-end management investment company consisting of multiple investment series. This SAI relates to the Funds. The Trust was organized as a Delaware statutory trust on February 9, 2012. The Trust is registered with the U.S. Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (together with the rules and regulations adopted thereunder, as amended, the “1940 Act”), as an open-end management investment company, and the offering of each Fund’s shares (“Shares”) is registered under the Securities Act of 1933, as amended (the “Securities Act”). The Trust is governed by its Board of Trustees (the “Board”). Vident Advisory, LLC (“Vident Advisory” or the “Adviser”) serves as investment adviser to the Funds. Vident Investment Advisory, LLC (the “Sub-Adviser”) serves as sub-adviser to the Funds. The investment objective of the Funds is to seek to track the performance, before fees and expenses, of an applicable underlying Index.

Each Fund offers and issues Shares at its net asset value (“NAV”) only in aggregations of a specified number of Shares (each, a “Creation Unit”). The U.S. Equity Fund and International Equity Fund (the “Equity Funds”) each generally offer and issue Shares in exchange for a basket of securities included in the applicable Fund’s Index (“Deposit Securities”) together with the deposit of a specified cash payment (“Cash Component”). The U.S. Bond Fund generally offers and issues Shares in exchange for cash. The Trust reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any Deposit Security. Shares are listed on the NYSE Arca, Inc. (the “Exchange”) and trade on the Exchange at market prices that may differ from the Shares’ NAV. A Creation Unit of a Fund generally consists of 100,000 Shares, though this may change from time to time. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, Shares are not redeemable securities.

Shares may be issued in advance of receipt of Deposit Securities subject to various conditions, including a requirement to maintain on deposit with the Trust cash at least equal to a specified percentage of the value of the missing Deposit Securities, as set forth in the Participant Agreement (as defined below). The Trust may impose a transaction fee for each creation or redemption. In all cases, such fees will be limited in accordance with the requirements of the SEC applicable to management investment companies offering redeemable securities. As in the case of other publicly traded securities, brokers’ commissions on transactions in the secondary market will be based on negotiated commission rates at customary levels.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVES, POLICIES, AND RELATED RISKS

Each Fund’s investment objective and principal investment strategies are described in the Prospectus. The following information supplements, and should be read in conjunction with, the Prospectus. For a description of certain permitted investments, see “[Description of Permitted Investments](#)” in this SAI.

With respect to each Fund’s investments, unless otherwise noted, if a percentage limitation on investment is adhered to at the time of investment or contract, a subsequent increase or decrease as a result of market movement or redemption will not result in a violation of such investment limitation.

Diversification

Each Fund is “diversified” within the meaning of the 1940 Act. Under applicable federal laws, to qualify as a diversified fund, each Fund, with respect to 75% of its total assets, may not invest greater than 5% of its total assets in any one issuer and may not hold greater than 10% of the securities of one issuer, other than investments in cash and cash items (including receivables), U.S. government securities, and securities of other investment companies. The remaining 25% of each Fund’s total assets does not need to be “diversified” and may be invested in securities of a single issuer, subject to other applicable laws. The diversification of a fund’s holdings is measured at the time the fund purchases a security. However, if a fund purchases a security and holds it for a period of time, the security may become a larger percentage of the fund’s total assets due to movements in the financial markets. If the market affects several securities held by a fund, the fund may have a greater percentage of its assets invested in securities of a single issuer or a small number of issuers. However, each Fund intends to satisfy the asset diversification requirements for qualification as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). See “[Federal Income Taxes](#)” below for details.

General Risks

The value of a Fund’s portfolio securities may fluctuate with changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular security or issuer and changes in general economic or political conditions. An investor in a Fund could lose money over short or long periods of time.

There can be no guarantee that a liquid market for the securities held by a Fund will be maintained. The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of Shares will be adversely affected if trading markets for a Fund’s portfolio securities are limited or absent, or if bid-ask spreads are wide.

Cyber Security Risk. Investment companies, such as the Funds, and their service providers may be subject to operational and information security risks resulting from cyber attacks. Cyber attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber security breaches. Cyber attacks affecting a Fund or the Adviser, Sub-Adviser, custodian, transfer agent, intermediaries and other third-party service providers may adversely impact a Fund. For instance, cyber attacks may interfere with the processing of shareholder transactions, impact a Fund's ability to calculate its NAV, cause the release of private shareholder information or confidential company information, impede trading, subject a Fund to regulatory fines or financial losses, and cause reputational damage. A Fund may also incur additional costs for cyber security risk management purposes. Similar types of cyber security risks are also present for issuers of securities in which a Fund invests, which could result in material adverse consequences for such issuers, and may cause a Fund's investments in such portfolio companies to lose value.

Recent Market Events. Beginning in the first quarter of 2020, financial markets in the United States and around the world experienced extreme and in many cases unprecedented volatility and severe losses due to the global pandemic caused by COVID-19, a novel coronavirus. The pandemic has resulted in a wide range of social and economic disruptions, including closed borders, voluntary or compelled quarantines of large populations, stressed healthcare systems, reduced or prohibited domestic or international travel, supply chain disruptions, and so-called "stay-at-home" orders throughout much of the United States and many other countries. The fall-out from these disruptions has included the rapid closure of businesses deemed "non-essential" by federal, state, or local governments and rapidly increasing unemployment, as well as greatly reduced liquidity for certain instruments at times. Some sectors of the economy and individual issuers have experienced particularly large losses. Such disruptions may continue for an extended period of time or reoccur in the future to a similar or greater extent. In response, the U.S. government and the Federal Reserve have taken extraordinary actions to support the domestic economy and financial markets, resulting in very low interest rates and in some cases negative yields. It is unknown how long circumstances related to the pandemic will persist, whether they will reoccur in the future, whether efforts to support the economy and financial markets will be successful, and what additional implications may follow from the pandemic. The impact of these events and other epidemics or pandemics in the future could adversely affect Fund performance.

DESCRIPTION OF PERMITTED INVESTMENTS

The following are descriptions of the Funds' permitted investments and investment practices and the associated risk factors. A Fund will only invest in any of the following instruments or engage in any of the following investment practices if such investment or activity is consistent with a Fund's investment objective and permitted by the Fund's stated investment policies. Each of the permitted investments described below applies to each Fund unless otherwise noted.

Corporate Debt Securities (*U.S. Bond Fund only*). Corporate debt securities are long- and short-term debt obligations issued by companies (such as publicly issued and privately placed bonds, notes and commercial paper). The Adviser considers corporate debt securities to be of investment grade quality if they are rated BBB or higher by Standard & Poor's ("S&P"), a division of the McGraw Hill Companies, or Baa or higher by Moody's Investors Service, Inc. ("Moody's"), or if unrated, determined by the Adviser to be of comparable quality. Investment grade debt securities generally have adequate to strong protection of principal and interest payments. In the lower end of this category, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal than in higher rated categories.

Currency Transactions (*International Equity Fund only*). The Fund may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The Fund does not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund's total assets that are denominated in one or more foreign currencies.

Forward Foreign Currency Contracts. A forward foreign currency exchange contract ("forward contract") involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the interbank market conducted directly between currency traders (usually large commercial banks) and their customers. Forward contracts are contracts between parties in which one party agrees to make a payment to the other party (the counterparty) based on the market value or level of a specified currency. In return, the counterparty agrees to make payment to the first party based on the return of a different specified currency. A forward contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades. These contracts typically are settled by physical delivery of the underlying currency or currencies in the amount of the full contract value.

A non-deliverable forward contract is a forward contract where there is no physical settlement of two currencies at maturity. Non-deliverable forward contracts will usually be done on a net basis, with the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of the Fund's obligations over its entitlements with respect to each non-deliverable forward contract is accrued on a daily basis and an amount of cash or highly liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Fund's custodian bank. The risk of loss with respect to non-deliverable forward contracts generally is limited to the net amount of payments that the Fund is contractually obligated to make or receive.

Foreign Currency Futures Contracts. A foreign currency futures contract is a contract involving an obligation to deliver or acquire the specified amount of a specific currency, at a specified price and at a specified future time. Futures contracts may be settled on a net cash payment basis rather than by the sale and delivery of the underlying currency.

Currency exchange transactions involve a significant degree of risk and the markets in which currency exchange transactions are effected are highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. Currency exchange trading risks include, but are not limited to, exchange rate risk, maturity gap, interest rate risk, and potential interference by foreign governments through regulation of local exchange markets, foreign investment or particular transactions in foreign currency. If the Fund utilizes foreign currency transactions at an inappropriate time, such transactions may not serve their intended purpose of improving the correlation of the Fund's return with the performance of its underlying Index and may lower the Fund's return. The Fund could experience losses if the value of any currency forwards and futures positions is poorly correlated with its other investments or if it could not close out its positions because of an illiquid market. Such contracts are subject to the risk that the counterparty will default on its obligations. In addition, the Fund will incur transaction costs, including trading commissions, in connection with certain foreign currency transactions.

Depository Receipts (*International Equity Fund only*). To the extent the Fund invests in stocks of foreign corporations, the Fund's investment in securities of foreign companies may be in the form of depository receipts or other securities convertible into securities of foreign issuers. American Depository Receipts ("ADRs") are dollar-denominated receipts representing interests in the securities of a foreign issuer, which securities may not necessarily be denominated in the same currency as the securities into which they may be converted. ADRs are receipts typically issued by United States banks and trust companies which evidence ownership of underlying securities issued by a foreign corporation. Generally, ADRs in registered form are designed for use in domestic securities markets and are traded on exchanges or over-the-counter in the United States. Global Depository Receipts ("GDRs"), European Depository Receipts ("EDRs"), and International Depository Receipts ("IDRs") are similar to ADRs in that they are certificates evidencing ownership of shares of a foreign issuer, however, GDRs, EDRs, and IDRs may be issued in bearer form and denominated in other currencies, and are generally designed for use in specific or multiple securities markets outside the U.S. EDRs, for example, are designed for use in European securities markets, while GDRs are designed for use throughout the world. Depository receipts will not necessarily be denominated in the same currency as their underlying securities.

The Fund will not invest in any unlisted Depository Receipts or any Depository Receipt that the Sub-Adviser deems to be illiquid or for which pricing information is not readily available. In addition, all Depository Receipts generally must be sponsored. However, the Fund may invest in unsponsored Depository Receipts under certain limited circumstances. The issuers of unsponsored Depository Receipts are not obligated to disclose material information in the United States and, therefore, there may be less information available regarding such issuers and there may not be a correlation between such information and the value of the Depository Receipts. The use of Depository Receipts may increase tracking error relative to the underlying Index.

Equity Securities (*Equity Funds only*). Equity securities, such as the common stocks of an issuer, are subject to stock market fluctuations and therefore may experience volatile changes in value as market conditions, consumer sentiment or the financial condition of the issuers change. A decrease in value of the equity securities in a Fund's portfolio may also cause the value of the Fund's Shares to decline.

An investment in the Funds should be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of a Fund's portfolio securities and therefore a decrease in the value of Shares). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic, public health, or banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

When-Issued Securities: A when-issued security is one whose terms are available and for which a market exists, but which has not been issued. When a Fund engages in when-issued transactions, it relies on the other party to consummate the sale. If the other party fails to complete the sale, a Fund may miss the opportunity to obtain the security at a favorable price or yield.

When purchasing a security on a when-issued basis, a Fund assumes the rights and risks of ownership of the security, including the risk of price and yield changes. At the time of settlement, the value of the security may be more or less than the purchase price. The

yield available in the market when the delivery takes place also may be higher than those obtained in the transaction itself. Because a Fund does not pay for the security until the delivery date, these risks are in addition to the risks associated with its other investments.

Decisions to enter into “when-issued” transactions will be considered on a case-by-case basis when necessary to maintain continuity in a company’s index membership. A Fund will segregate cash or liquid securities equal in value to commitments for the when-issued transactions. A Fund will segregate additional liquid assets daily so that the value of such assets is equal to the amount of the commitments.

Types of Equity Securities:

Common Stocks — Common stocks represent units of ownership in a company. Common stocks usually carry voting rights and earn dividends. Unlike preferred stocks, which are described below, dividends on common stocks are not fixed but are declared at the discretion of the company’s board of directors.

Preferred Stocks — Preferred stocks are also units of ownership in a company. Preferred stocks normally have preference over common stock in the payment of dividends and the liquidation of the company. However, in all other respects, preferred stocks are subordinated to the liabilities of the issuer. Unlike common stocks, preferred stocks are generally not entitled to vote on corporate matters. Types of preferred stocks include adjustable-rate preferred stock, fixed dividend preferred stock, perpetual preferred stock, and sinking fund preferred stock.

Generally, the market values of preferred stock with a fixed dividend rate and no conversion element vary inversely with interest rates and perceived credit risk.

Rights and Warrants — A right is a privilege granted to existing shareholders of a corporation to subscribe to shares of a new issue of common stock before it is issued. Rights normally have a short life of usually two to four weeks, are freely transferable and entitle the holder to buy the new common stock at a lower price than the public offering price. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy proportionate amount of common stock at a specified price. Warrants are freely transferable and are traded on major exchanges. Unlike rights, warrants normally have a life that is measured in years and entitles the holder to buy common stock of a company at a price that is usually higher than the market price at the time the warrant is issued. Corporations often issue warrants to make the accompanying debt security more attractive.

An investment in warrants and rights may entail greater risks than certain other types of investments. Generally, rights and warrants do not carry the right to receive dividends or exercise voting rights with respect to the underlying securities, and they do not represent any rights in the assets of the issuer. In addition, their value does not necessarily change with the value of the underlying securities, and they cease to have value if they are not exercised on or before their expiration date. Investing in rights and warrants increases the potential profit or loss to be realized from the investment as compared with investing the same amount in the underlying securities.

Exchange-Traded Notes (“ETNs”). A Fund may invest in ETNs. ETNs generally are senior, unsecured, unsubordinated debt securities issued by a sponsor, such as an investment bank. ETNs are traded on exchanges and the returns are linked to the performance of market indexes. In addition to trading ETNs on exchanges, investors may redeem ETNs directly with the issuer on a periodic basis, typically in a minimum amount of 50,000 units, or hold the ETNs until maturity. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in the underlying market, changes in the applicable interest rates, and economic, legal, political or geographic events that affect the referenced market. Because ETNs are debt securities, they are subject to credit risk. If the issuer has financial difficulties or goes bankrupt, a Fund may not receive the return it was promised. If a rating agency lowers an issuer’s credit rating, the value of the ETN may decline and a lower credit rating reflects a greater risk that the issuer will default on its obligation. There may be restrictions on a Fund’s right to redeem its investment in an ETN. There are no periodic interest payments for ETNs, and principal is not protected. A Fund’s decision to sell its ETN holdings may be limited by the availability of a secondary market.

Fixed Income Securities. The U.S. Bond Fund invests primarily in fixed income securities and the Equity Funds may invest in fixed income securities. Even though interest-bearing securities are investments that promise a stable stream of income, the prices of such securities are affected by changes in interest rates. In general, fixed income security prices rise when interest rates fall and fall when interest rates rise. Securities with shorter maturities, while offering lower yields, generally provide greater price stability than longer term securities and are less affected by changes in interest rates. The values of fixed income securities also may be affected by changes in the credit rating or financial condition of the issuing entities. Once the rating of a portfolio security has been changed, the Funds will consider all circumstances deemed relevant in determining whether to continue to hold the security.

Fixed income investments bear certain risks, including credit risk, or the ability of an issuer to pay interest and principal as they become due. Generally, higher yielding bonds are subject to more credit risk than lower yielding bonds. Interest rate risk refers to the fluctuations in value of fixed income securities resulting from the inverse relationship between the market value of outstanding fixed income securities and changes in interest rates. An increase in interest rates will generally reduce the market value of fixed income investments and a decline in interest rates will tend to increase their value.

Call risk is the risk that an issuer will pay principal on an obligation earlier than scheduled or expected, which would accelerate cash flows from, and shorten the average life of, the security. Bonds are typically called when interest rates have declined. In the event of a bond being called, the Adviser may have to reinvest the proceeds in lower yielding securities to the detriment of the Funds.

Extension risk is the risk that an issuer may pay principal on an obligation slower than expected, having the effect of extending the average life and duration of the obligation. This typically happens when interest rates have increased.

A number of factors, including changes in a central bank's monetary policies or general improvements in the economy, may cause interest rates to rise. Fixed income securities with longer durations are more sensitive to interest rate changes than securities with shorter durations, making them more volatile. This means their prices are more likely to experience a considerable reduction in response to a rise in interest rates.

When investing in fixed income securities, the Funds may purchase securities regardless of their rating, including fixed income securities rated below investment grade – securities rated below investment grade are often referred to as high yield securities or “junk bonds”. High yield securities or “junk bonds,” involve special risks in addition to the risks associated with investments in higher rated fixed income securities. While offering a greater potential opportunity for capital appreciation and higher yields, high yield securities may be subject to greater levels of interest rate, credit and liquidity risk, may entail greater potential price volatility, and may be less liquid than higher rated fixed income securities. High yield securities may be regarded as predominantly speculative with respect to the issuer's continuing ability to meet principal and interest payments. They may also be more susceptible to real or perceived adverse economic and competitive industry conditions than higher rated securities. Fixed income securities rated in the lowest investment grade categories by the rating agencies may also possess speculative characteristics. If securities are in default with respect to the payment of interest or the repayment of principal, or present an imminent risk of default with respect to such payments, the issuer of such securities may fail to resume principal or interest payments, in which case a Fund may lose its entire investment in the high yield security. In addition, to the extent that there is no established retail secondary market, there may be thin trading of high yield securities, and this may have an impact on a Fund's ability to accurately value high yield securities and the Fund's assets and on the Fund's ability to dispose of the securities. Adverse publicity and investor perception, whether or not based on fundamental analysis, may decrease the values and liquidity of high yield securities especially in a thinly traded market.

Fixed-Income Securities Ratings (*U.S. Bond Fund only*). The nationally recognized statistical rating organizations publish ratings based upon their assessment of the relative creditworthiness of the rated fixed-income securities. Generally, a lower rating indicates higher credit risk, and higher yields are ordinarily available from fixed-income securities in the lower rating categories to compensate investors for the increased credit risk. Any use of credit ratings in evaluating fixed-income securities can involve certain risks. For example, ratings assigned by the rating agencies are based upon an analysis completed at the time of the rating of the obligor's ability to pay interest and repay principal, typically relying to a large extent on historical data. Rating agencies typically rely to a large extent on historical data which may not accurately represent present or future circumstances. Ratings do not purport to reflect to risk of fluctuations in market value of the fixed-income security and are not absolute standards of quality and only express the rating agency's current opinion of an obligor's overall financial capacity to pay its financial obligations. A credit rating is not a statement of fact or a recommendation to purchase, sell or hold a fixed-income obligation. Also, credit quality can change suddenly and unexpectedly, and credit ratings may not reflect the issuer's current financial condition or events since the security was last rated. Rating agencies may have a financial interest in generating business, including the arranger or issuer of the security that normally pays for that rating, and a low rating might affect future business. While rating agencies have policies and procedures to address this potential conflict of interest, there is a risk that these policies will fail to prevent a conflict of interest from impacting the rating. Additionally, legislation has been enacted in an effort to reform rating agencies. Rules have also been adopted by the SEC to require rating agencies to provide additional disclosure and reduce conflicts of interest, and further reform has been proposed. It is uncertain how such legislation or additional regulation might impact the ratings agencies business and the Sub-Adviser's investment process.

Prepayment risk occurs when a fixed-income investment held by the Fund may be repaid in whole or in part prior to its maturity. The amount of prepayable obligations the Fund invests in from time to time may be affected by general business conditions, market interest rates, borrowers' financial conditions and competitive conditions among lenders. In a period of declining interest rates, borrowers may repay investments more quickly than anticipated, reducing the yield to maturity and the average life of the relevant investment. Moreover, when the Fund reinvests the proceeds of a prepayment in these circumstances, it will likely receive a rate of interest that is lower than the rate on the security that was prepaid. To the extent that the Fund purchases a relevant investment at a premium, prepayments may result in a loss to the extent of the premium paid. If the Fund buys such investments at a discount, both scheduled payments and unscheduled prepayments will increase current and total returns and unscheduled prepayments will also accelerate the recognition of income. In a period of rising interest rates, prepayments of investments may occur at a slower than expected rate, creating maturity extension risk. This particular risk may effectively change an investment that was considered short- or intermediate-term at the time of purchase into a longer-term investment. Since the value of longer-term investments generally fluctuates more widely in response to changes in interest rates than short-term investments, maturity extension risk could increase the volatility of the Fund. When interest rates decline, the value of an investment with prepayment features may not increase as much as that of other fixed-income securities and, as noted above, changes in market rates of interest may accelerate or delay prepayments and thus affect maturities.

High Yield and Unrated Securities Risk (*U.S. Bond Fund only*). The Fund may invest in high yield securities and unrated securities of similar credit quality (commonly known as “junk bonds”). High yield securities generally pay higher yields (greater income) than investment in higher quality securities; however, high yield securities may be subject to greater levels of interest rate, credit and liquidity risk than funds that do not invest in such securities, and are considered predominantly speculative with respect to an issuer’s continuing ability to make principal and interest payments. Successful investment in high yield securities and unrated securities of similar quality involves greater investment risk and is highly dependent on the applicable investment adviser’s credit analysis. The value of these securities often fluctuates in response to company, political or economic developments and declines significantly over short periods of time or during periods of general economic difficulty. An economic downturn or period of rising interest rates could adversely affect the market for these securities and reduce the ability to sell these securities (liquidity risk). These securities can also be thinly traded or have restrictions on resale, making them difficult to sell at an acceptable price. Because objective pricing data may be less available, judgment may play a greater role in the valuation process. If the issuer of a security is in default with respect to interest or principal payments, the Fund may lose its entire investment.

Illiquid Investments. Each Fund may invest up to an aggregate amount of 15% of its net assets in illiquid investments, as such term is defined by Rule 22e-4 of the 1940 Act. A Fund may not invest in illiquid investments if, as a result of such investment, more than 15% of the Fund’s net assets would be invested in illiquid investments. Illiquid investments include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The inability of a Fund to dispose of illiquid investments readily or at a reasonable price could impair a Fund’s ability to raise cash for redemptions or other purposes. The liquidity of securities purchased by a Fund that are eligible for resale pursuant to Rule 144A, except for certain 144A bonds, will be monitored by a Fund on an ongoing basis. In the event that more than 15% of a Fund’s net assets are invested in illiquid investments, the Fund, in accordance with Rule 22e-4(b)(1)(iv), will report the occurrence to both the Board and the SEC and seek to reduce its holdings of illiquid investments within a reasonable period of time.

Investment Company Securities. A Fund may invest in the securities of other investment companies. The 1940 Act generally prohibits a fund from acquiring more than 3% of the outstanding voting shares of an investment company and limits such investments to no more than 5% of the fund’s total assets in any single investment company and no more than 10% in any combination of two or more investment companies. A Fund may purchase or otherwise invest in shares of affiliated or non-affiliated exchange-traded funds (“ETFs”) and money market funds.

A Fund may invest in the securities of other investment companies, including ETFs, closed-end funds and open-end (mutual) funds (also called underlying funds).

To the extent such underlying funds are index-based, these underlying funds will generally attempt to replicate the performance of a particular index. An underlying fund may not always hold all of the same securities as the index it attempts to track. An underlying fund may use statistical sampling techniques to attempt to replicate the returns of an index. Statistical sampling techniques attempt to match the investment characteristics of the index and the fund by taking into account such factors as capitalization, industry exposures, dividend yield, price/earnings (P/E) ratio, price/book (P/B) ratio, and earnings growth. An underlying fund may not track the index perfectly because differences between the index and the fund’s portfolio can cause differences in performance. In addition, expenses and transaction costs, the size and frequency of cash flow into and out of the underlying fund, and differences between how and when the underlying fund and the index are valued can cause differences in performance.

When a Fund invests in underlying funds it will indirectly bear its proportionate share of any fees and expenses payable directly by the underlying fund. In connection with its investments in other investment companies, a Fund will incur higher expenses, many of which may be duplicative. Furthermore, to the extent a Fund invests in shares of ETFs and underlying funds, its performance will be directly related to the ability of the ETFs and underlying funds to meet their respective investment objectives, as well as the allocation of such Fund’s assets among the ETFs and underlying funds by the Sub-Adviser. Accordingly, a Fund’s investment performance will be influenced by the investment strategies of and risks associated with the ETFs and underlying funds in direct proportion to the amount of assets such Fund allocates to the ETFs and underlying funds utilizing such strategies.

Investments in ETFs involve certain inherent risks generally associated with investments in a broadly-based portfolio of stocks, including the following risks: (1) the general level of stock prices may decline, thereby adversely affecting the value of each unit of the ETF or other instrument; (2) an ETF, to the extent such ETF is index-based, may not fully replicate the performance of its benchmark index because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weightings of securities or number of stocks held; (3) an ETF may also be adversely affected by the performance of the specific index, market sector or group of industries on which it is based; and (4) an ETF, to the extent such ETF is index-based, may not track an index as well as a traditional index mutual fund because ETFs are valued by the market and, therefore, there may be a difference between the market value and the ETF’s NAV. Additionally, investments in fixed income ETFs involve certain inherent risks generally associated with investments in fixed income securities, including the risk of fluctuation in market value based on interest rates rising or declining and risks of a decrease in liquidity, such that no assurances can be made that an active trading market for underlying ETFs will be maintained.

There is also a risk that the underlying funds or ETFs may terminate due to extraordinary events. For example, any of the service providers to the underlying fund or ETF, such as the trustee or sponsor, may close or otherwise fail to perform their obligations to the

underlying fund or ETF, and the underlying fund or ETF may not be able to find a substitute service provider. Also, the underlying fund or ETF may be dependent upon licenses to use the various indices as a basis for determining their compositions and/or otherwise to use certain trade names. If these licenses are terminated, the respective underlying fund or ETF may also terminate. In addition, an underlying fund or ETF may terminate if its net assets fall below a certain amount.

Generally, under the 1940 Act, a fund may not acquire shares of another investment company (including ETFs) if, immediately after such acquisition, (i) such fund would hold more than 3% of the other investment company's total outstanding shares, (ii) if such fund's investment in securities of the other investment company would be more than 5% of the value of the total assets of the fund, or (iii) if more than 10% of such fund's total assets would be invested in investment companies. The SEC has granted orders for exemptive relief to certain ETFs that permit investments in those ETFs by other investment companies (such as the Funds) in excess of these limits. The Funds may invest in ETFs that have received such exemptive orders from the SEC, pursuant to the conditions specified in such orders. In accordance with Section 12(d)(1)(F)(i) of the 1940 Act, the Funds may also invest in ETFs that have not received such exemptive orders as long as the Funds (and all of their affiliated persons, including the Adviser) do not acquire more than 3% of the total outstanding stock of such underlying ETF, unless otherwise permitted to do so pursuant to permission granted by the SEC. If a Fund seeks to redeem shares of an underlying ETF purchased in reliance on Section 12(d)(1)(F), the underlying ETF is not obligated to redeem an amount exceeding 1% of the underlying ETF's outstanding shares during a period of less than 30 days. In accordance with Section 12(d)(1)(G) of the 1940 Act, the Funds may also invest without limitation in shares of other investment companies that are part of the same group of investment companies and that meet certain additional requirements.

Master Limited Partnerships ("MLPs"). MLPs are limited partnerships in which the ownership units are publicly traded. MLP units are registered with the SEC and are freely traded on a securities exchange or in the OTC market. MLPs often own several properties or businesses (or own interests) that are related to real estate development and oil and gas industries, but they also may finance motion pictures, research and development and other projects. Generally, a MLP is operated under the supervision of one or more managing general partners. Limited partners are not involved in the day-to-day management of the partnership.

The risks of investing in a MLP are generally those involved in investing in a partnership as opposed to a corporation. For example, state law governing partnerships is often less restrictive than state law governing corporations. Accordingly, there may be fewer protections afforded investors in a MLP than investors in a corporation. Additional risks involved with investing in a MLP are risks associated with the specific industry or industries in which the partnership invests, such as the risks of investing in real estate, or oil and gas industries.

MLPs are generally treated as partnerships for U.S. federal income tax purposes. When a Fund invests in the equity securities of an MLP or any other entity that is treated as a partnership for U.S. federal income tax purposes, a Fund will be treated as a partner in the entity for tax purposes. Accordingly, in calculating the applicable Fund's taxable income, it will be required to take into account its allocable share of the income, gains, losses, deductions, and credits recognized by each such entity, regardless of whether the entity distributes cash to the Fund. Distributions from such an entity to a Fund are not generally taxable unless the cash amount (or, in certain cases, the fair market value of marketable securities) distributed to such Fund exceeds the Fund's adjusted tax basis in its interest in the entity. In general, a Fund's allocable share of such an entity's net income will increase such Fund's adjusted tax basis in its interest in the entity, and distributions to such Fund from such an entity and the Fund's allocable share of the entity's net losses will decrease such Fund's adjusted basis in its interest in the entity, but not below zero. A Fund may receive cash distributions from such an entity in excess of the net amount of taxable income such Fund is allocated from its investment in the entity. In other circumstances, the net amount of taxable income a Fund is allocated from its investment in such an entity may exceed cash distributions received from the entity. Thus, a Fund's investments in such an entity may lead such Fund to make distributions in excess of its earnings and profits, or such Fund may be required to sell investments, including when not otherwise advantageous to do so, to satisfy the distribution requirements applicable to RICs under the Code.

Depreciation or other cost recovery deductions passed through to a Fund from any investments in MLPs in a given year will generally reduce such Fund's taxable income, but those deductions may be recaptured in such Fund's income in one or more subsequent years. When recognized and distributed, recapture income will generally be taxable to a Fund's shareholders at the time of the distribution at ordinary income tax rates, even though those shareholders might not have held Shares in such Fund at the time the deductions were taken, and even though those shareholders may not have corresponding economic gain on their Shares at the time of the recapture. To distribute recapture income or to fund redemption requests, a Fund may need to liquidate investments, which may lead to additional taxable income.

Money Market Instruments. A Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include: (i) short-term obligations issued by the U.S. Government; (ii) negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase "Prime-1" by Moody's or "A-1+" or "A-1" by S&P or, if unrated, of comparable quality as determined by the Fund; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Mortgage-Backed and Asset-Backed Securities (*U.S. Bond Fund only*). The Fund may invest in mortgage-backed and asset-backed securities. MBS in which the Fund may invest are mortgage-related securities issued or guaranteed by the U.S. government, its agencies and instrumentalities. Mortgage-related securities represent ownership in pools of mortgage loans assembled for sale to investors by various government agencies such as the Government National Mortgage Association (GNMA) and government-related organizations such as the Federal National Mortgage Association (FNMA) and the Federal Home Loan Mortgage Corporation (FHLMC), as well as by nongovernment issuers such as commercial banks, savings and loan institutions, mortgage bankers and private mortgage insurance companies. Although certain mortgage-related securities are guaranteed by a third party or otherwise similarly secured, the market value of the security, which may fluctuate, is not so secured. These securities differ from conventional bonds in that the principal is paid back to the investor as payments are made on the underlying mortgages in the pool. Accordingly, the investing Fund receives monthly scheduled payments of principal and interest along with any unscheduled principal prepayments on the underlying mortgages. Because these scheduled and unscheduled principal payments must be reinvested at prevailing interest rates, mortgage-backed securities do not provide an effective means of locking in long-term interest rates for the investor.

In addition, there are a number of important differences among the agencies and instrumentalities of the U.S. government that issue mortgage-related securities and among the securities they issue. Mortgage-related securities issued by GNMA include GNMA Mortgage Pass-Through Certificates (also known as Ginnie Maes) which are guaranteed as to the timely payment of principal and interest. That guarantee is backed by the full faith and credit of the U.S. Treasury. GNMA is a corporation wholly owned by the U.S. government within the Department of Housing and Urban Development. Mortgage-related securities issued by FNMA include FNMA Guaranteed Mortgage Pass-Through Certificates (also known as Fannie Maes) and are guaranteed as to payment of principal and interest by FNMA itself and backed by a line of credit with the U.S. Treasury. FNMA is a government-sponsored entity wholly owned by public stockholders. Mortgage-related securities issued by FHLMC include FHLMC Mortgage Participation Certificates (also known as Freddie Macs) guaranteed as to payment of principal and interest by FHLMC itself and backed by a line of credit with the U.S. Treasury. FHLMC is a government-sponsored entity wholly owned by public stockholders.

On September 7, 2008, the U.S. Treasury announced a federal takeover of Fannie Mae and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), placing the two federal instrumentalities in conservatorship. Under the takeover, the U.S. Treasury agreed to acquire \$1 billion of senior preferred stock of each instrumentality and obtained warrants for the purchase of common stock of each instrumentality (the “Senior Preferred Stock Purchase Agreement” or “Agreement”). Under the Agreement, the U.S. Treasury pledged to provide up to \$200 billion per instrumentality as needed, including the contribution of cash capital to the instrumentalities in the event their liabilities exceed their assets. This was intended to ensure that the instrumentalities maintain a positive net worth and meet their financial obligations, preventing mandatory triggering of receivership. On December 24, 2009, the U.S. Treasury announced that it was amending the Agreement to allow the \$200 billion cap on the U.S. Treasury’s funding commitment to increase as necessary to accommodate any cumulative reduction in net worth over the next three years. As a result of this Agreement, the investments of holders, including the Funds, of mortgage-backed securities and other obligations issued by Fannie Mae and Freddie Mac are protected.

Asset-backed securities are structured like MBS, but instead of mortgage loans or interests in mortgage loans, the underlying assets may include such items as motor vehicle installment sales contracts or installment loan contracts, leases of various types of real and personal property, and receivables from credit card agreements and from sales of personal property. Regular payments received on asset-backed securities include both interest and principal. Asset-backed securities typically have no U.S. government backing. Additionally, the ability of an issuer of asset-backed securities to enforce its security interest in the underlying assets may be limited.

If the Fund purchases a mortgage-backed or other asset-backed security at a premium, the premium may be lost if there is a decline in the market value of the security whether resulting from changes in interest rates or prepayments in the underlying collateral. As with other interest-bearing securities, the prices of such securities are inversely affected by changes in interest rates. Although the value of a mortgage-backed or other asset-backed security may decline when interest rates rise, the converse is not necessarily true, since in periods of declining interest rates the mortgages and loans underlying the securities are prone to prepayment, thereby shortening the average life of the security and shortening the period of time over which income at the higher rate is received. When interest rates are rising, the rate of prepayment tends to decrease, thereby lengthening the period of time over which income at the lower rate is received. For these and other reasons, a mortgage-backed or other asset-backed security’s average maturity may be shortened or lengthened as a result of interest rate fluctuations and, therefore, it is not possible to predict accurately the security’s return. In addition, while the trading market for short-term mortgages and asset-backed securities is ordinarily quite liquid, in times of financial stress the trading market for these securities may become restricted.

Non-U.S. Securities. Investments in non-U.S. securities involve certain risks that may not be present in investments in U.S. securities. For example, non-U.S. securities may be subject to currency risks or to political or economic instability. There may be less information publicly available about a non-U.S. issuer than about a U.S. issuer, and a foreign issuer may or may not be subject to uniform accounting, auditing and financial reporting standards and practices comparable to those in the U.S. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. Other risks of investing in such securities include political or economic instability in the country involved, the difficulty of predicting international trade patterns and the possibility of imposition of exchange controls. The prices of such securities may be more volatile than those of domestic securities. With respect to certain foreign countries, there is a possibility of expropriation of

assets or nationalization, imposition of withholding taxes on dividend or interest payments, difficulty in obtaining and enforcing judgments against foreign entities or diplomatic developments which could affect investment in these countries. Losses and other expenses may be incurred in converting between various currencies in connection with purchases and sales of foreign securities. Since foreign exchanges may be open on days when the Fund does not price its Shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell Shares. Conversely, Shares may trade on days when foreign exchanges are closed. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments.

Non-U.S. stock markets may not be as developed or efficient as, and may be more volatile than, those in the U.S. While the volume of shares traded on non-U.S. stock markets generally has been growing, such markets usually have substantially less volume than U.S. markets. Therefore, the Fund's investment in non-U.S. equity securities may be less liquid and subject to more rapid and erratic price movements than comparable securities listed for trading on U.S. exchanges. Non-U.S. equity securities may trade at price/earnings multiples higher than comparable U.S. securities and such levels may not be sustainable. There may be less government supervision and regulation of foreign stock exchanges, brokers, banks and listed companies abroad than in the U.S. Moreover, settlement practices for transactions in foreign markets may differ from those in U.S. markets. Such differences may include delays beyond periods customary in the U.S. and practices, such as delivery of securities prior to receipt of payment, that increase the likelihood of a failed settlement, which can result in losses to the Fund. The value of non-U.S. investments and the investment income derived from them may also be affected unfavorably by changes in currency exchange control regulations. Foreign brokerage commissions, custodial expenses and other fees are also generally higher than for securities traded in the U.S. This may cause the Fund to incur higher portfolio transaction costs than domestic equity funds. Fluctuations in exchange rates may also affect the earning power and asset value of the foreign entity issuing a security, even one denominated in U.S. dollars. Dividend and interest payments may be repatriated based on the exchange rate at the time of disbursement, and restrictions on capital flows may be imposed.

Set forth below for certain markets in which the Fund may invest are brief descriptions of some of the conditions and risks in each such market.

Investments in Emerging Markets Securities. Investments in securities listed and traded in emerging markets are subject to additional risks that may not be present for U.S. investments or investments in more developed non-U.S. markets. Such risks may include: (i) greater market volatility; (ii) lower trading volume; (iii) greater social, political and economic uncertainty; (iv) governmental controls on foreign investments and limitations on repatriation of invested capital; (v) the risk that companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets; and (vi) the risk that there may be less protection of property rights than in other countries. Emerging markets are generally less liquid and less efficient than developed securities markets.

Investments in Europe. Most developed countries in Western Europe are members of the European Union ("EU"), and many are also members of the European Monetary Union (EMU), which requires compliance with restrictions on inflation rates, deficits, and debt levels. Unemployment in certain European nations is historically high and several countries face significant debt problems. These conditions can significantly affect every country in Europe. The euro is the official currency of the EU. Each Fund, through its investments in Europe, may have significant exposure to the euro and events affecting the euro. Recent market events affecting several of the EU member countries have adversely affected the sovereign debt issued by those countries, and ultimately may lead to a decline in the value of the euro. A significant decline in the value of the euro may produce unpredictable effects on trade and commerce generally and could lead to increased volatility in financial markets worldwide.

Following a referendum in June 2016, the UK formally exited from the EU on January 31, 2020 (known as "Brexit"). During a transition period ending December 31, 2020, the UK will continue to abide by the EU's rules and the UK's trade relationships with the EU will generally continue unchanged.

During this period and beyond, the impact on the UK and European economies and the broader global economy could be significant, resulting in negative impacts, such as increased volatility and illiquidity, potentially lower economic growth on markets in the UK, Europe, and globally, and changes in legal and regulatory regimes to which certain Fund assets are or become subject, any of which may adversely affect the value of a Fund's investments. Also, as a result of the referendum, on June 27, 2016, Standard & Poor's ("S&P") downgraded the UK's credit rating from "AAA" to "AA" with a "negative outlook," and on June 30, 2016, S&P downgraded the EU's credit rating from "AA+" to "AA". Other credit ratings agencies have taken similar actions.

The effects of Brexit will depend, in part, on agreements the UK negotiates to retain access to EU markets, either during a transitional period or more permanently, including, but not limited to, current trade and finance agreements. Brexit could lead to legal and tax uncertainty and potentially divergent national laws and regulations, as the UK determines which EU laws to replace or replicate. The extent of the impact of the withdrawal negotiations in the UK and in global markets, as well as any associated adverse consequences, remain unclear, and the uncertainty may have a significant negative effect on the value of a Fund investments. If one or more other countries were to exit the EU or abandon the use of the euro as a currency, the value of investments tied to those countries or the euro could decline significantly and unpredictably.

Real Estate Investment Trusts (*Equity Funds only*). A Fund may invest in the securities of real estate investment trusts (“REITs”) to the extent allowed by law. Risks associated with investments in securities of REITs include decline in the value of real estate, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, variations in rental income, changes in neighborhood values, the appeal of properties to tenants, and increases in interest rates. In addition, equity REITs may be affected by changes in the values of the underlying property owned by the trusts, while mortgage REITs may be affected by the quality of credit extended. REITs are dependent upon management skills, may not be diversified and are subject to the risks of financing projects. REITs are also subject to heavy cash-flow dependency, defaults by borrowers, self-liquidation and the possibility of failing to qualify for the favorable United States federal income tax treatment generally available to REITs under the Code, and failing to maintain exemption from the 1940 Act. If an issuer of debt securities collateralized by real estate defaults, it is conceivable that the REITs could end up holding the underlying real estate.

Repurchase Agreements. A Fund may invest in repurchase agreements with commercial banks, brokers or dealers to generate income from its excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires a financial instrument (*e.g.*, a security issued by the U.S. government or an agency thereof, a banker’s acceptance or a certificate of deposit) from a seller, subject to resale to the seller at an agreed upon price and date (normally, the next Business Day). A repurchase agreement may be considered a loan collateralized by securities. The resale price reflects an agreed upon interest rate effective for the period the instrument is held by the applicable Fund and is unrelated to the interest rate on the underlying instrument.

In these repurchase agreement transactions, the securities acquired by a Fund (including accrued interest earned thereon) must have a total value in excess of the value of the repurchase agreement and are held by the Custodian until repurchased. No more than an aggregate of 15% of a Fund’s net assets will be invested in illiquid investments, including repurchase agreements having maturities longer than seven days and securities subject to legal or contractual restrictions on resale, or for which there are no readily available market quotations.

The use of repurchase agreements involves certain risks. For example, if the other party to the agreement defaults on its obligation to repurchase the underlying security at a time when the value of the security has declined, a Fund may incur a loss upon disposition of the security. If the other party to the agreement becomes insolvent and subject to liquidation or reorganization under the U.S. Bankruptcy Code or other laws, a court may determine that the underlying security is collateral for a loan by a Fund not within the control of the Fund and, therefore, the Fund may not be able to substantiate its interest in the underlying security and may be deemed an unsecured creditor of the other party to the agreement.

Reverse Repurchase Agreements. A Fund may enter into reverse repurchase agreements, which involve the sale of securities held by the Fund subject to its agreement to repurchase the securities at an agreed-upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to a Fund’s limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, a Fund will maintain the segregation, either on its records or with the Trust’s custodian, of cash or other liquid securities, marked-to-market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by a Fund might be unable to deliver them when that Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer or trustee or receiver may receive an extension of time to determine whether to enforce a Fund’s obligation to repurchase the securities, and the Fund’s use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

Securities Lending. Each Fund may lend portfolio securities in an amount up to one-third of its total assets to brokers, dealers and other financial institutions. In a portfolio securities lending transaction, a Fund receives from the borrower an amount equal to the interest paid or the dividends declared on the loaned securities during the term of the loan as well as the interest on the collateral securities, less any fees (such as finders or administrative fees) the Fund pays in arranging the loan. A Fund may share the interest it receives on the collateral securities with the borrower. The terms of each Fund’s loans permit each Fund to reacquire loaned securities on five business days’ notice or in time to vote on any important matter. Loans are subject to termination at the option of the applicable Fund or borrower at any time, and the borrowed securities must be returned when the loan is terminated. The Funds may pay fees to arrange for securities loans.

The SEC currently requires that the following conditions must be met whenever a Fund’s portfolio securities are loaned: (1) the Fund must receive at least 100% cash collateral from the borrower; (2) the borrower must increase such collateral whenever the market value of the securities rises above the level of such collateral; (3) the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan, as well as any dividends, interest or other distributions on the loaned securities, and any increase in market value; (5) the Fund may pay only reasonable custodian fees approved by the Board in connection with the loan; (6) while voting rights on the loaned securities may pass to the borrower, the Board must terminate the loan and regain the right to vote the securities if a material event adversely affecting the investment occurs, and (7) the Fund may not loan its portfolio securities so that the value of the loaned securities is more than one-third of its total asset value, including collateral received from such loans.

These conditions may be subject to future modification. Such loans will be terminable at any time upon specified notice. A Fund might experience the risk of loss if the institution with which it has engaged in a portfolio loan transaction breaches its agreement with the Fund. In addition, the Funds will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, a Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. As part of participating in a lending program, the applicable Fund may be required to invest in collateralized debt or other securities that bear the risk of loss of principal. In addition, all investments made with the collateral received are subject to the risks associated with such investments. If such investments lose value, a Fund will have to cover the loss when repaying the collateral.

Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that a Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay a Fund any accrued income on those securities, and the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral.

TBA Transactions (*U.S. Bond Fund only*). The Fund may invest in U.S. agency MBS. In the basic MBS structure, mortgages with similar issuer, term and coupon characteristics are collected and aggregated into a "pool" consisting of multiple mortgage loans. The pool is assigned a CUSIP number and undivided interests in the pool are traded and sold as pass-through securities. The holder of the security is entitled to a pro rata share of principal and interest payments (including unscheduled prepayments) from the pool of mortgage loans.

An investment in a specific pool of pass-through securities requires an analysis of the specific prepayment risk of mortgages within the covered pool (since mortgagors typically have the option to prepay their loans). The level of prepayments on a pool of mortgage securities is difficult to predict and can impact the subsequent cash flows and value of the mortgage pool. In addition, when trading specific mortgage pools, precise execution, delivery and settlement arrangements must be negotiated for each transaction. These factors combine to make trading in mortgage pools somewhat cumbersome.

For the foregoing and other reasons, the Fund may seek to obtain exposure to U.S. agency MBS through the use of "to-be-announced" or "TBA transactions." "TBA" refers to a commonly used mechanism for the forward settlement of U.S. agency MBS, and not to a separate type of MBS. Most transactions in MBS occur through the use of TBA transactions. TBA transactions generally are conducted in accordance with widely-accepted guidelines which establish commonly observed terms and conditions for execution, settlement and delivery. In a TBA transaction, the buyer and seller decide on general trade parameters, such as agency, settlement date, paramount, and price. The actual pools delivered generally are determined two days prior to settlement date. The Fund intends to use TBA transactions in several ways. For example, the Fund expects that it will regularly enter into TBA agreements and "roll over" such agreements prior to the settlement date stipulated in such agreements. This type of TBA transaction is sometimes known as a "TBA roll." In a "TBA roll" the Fund generally will sell the obligation to purchase the pools stipulated in the TBA agreement prior to the stipulated settlement date and will enter into a new TBA agreement for future delivery of pools of MBS. In addition, the Fund may enter into TBA agreements and settle such transactions on the stipulated settlement date by accepting actual receipt or delivery of the pools of MBS stipulated in the TBA agreement.

Default by or bankruptcy of a counterparty to a TBA transaction would expose the Fund to possible loss because of adverse market action, expenses or delays in connection with the purchase or sale of the pools of MBS specified in the TBA transaction. To minimize this risk, the Fund will enter into TBA transactions only with established counterparties (such as major broker-dealers) and the Sub-Adviser will monitor the creditworthiness of such counterparties. In addition, the Fund may accept assignments of TBA transactions from Authorized Participants (as defined below) from time to time. The Fund's use of "TBA rolls" may cause the Fund to experience higher portfolio turnover, higher transaction costs and to pay higher capital gain distributions to shareholders (which may be taxable) than other funds.

The Fund intends to invest cash pending settlement of any TBA transactions in money market instruments, repurchase agreements, commercial paper (including asset-backed commercial paper) or other high-quality, liquid short-term instruments, which may include money market funds affiliated with the Sub-Adviser.

Tracking Stocks (*Equity Funds only*). A Fund may invest in tracking stocks. A tracking stock is a separate class of common stock whose value is linked to a specific business unit or operating division within a larger company and which is designed to "track" the performance of such business unit or division. The tracking stock may pay dividends to shareholders independent of the parent company. The parent company, rather than the business unit or division, generally is the issuer of tracking stock. However, holders of the tracking stock may not have the same rights as holders of the company's common stock.

U.S. Government Securities. A Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one-year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities of the

U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities such as the Federal National Mortgage Association (“Fannie Mae”), the Government National Mortgage Association (“Ginnie Mae”), the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the Student Loan Marketing Association, the National Credit Union Administration and the Federal Agricultural Mortgage Corporation (“Farmer Mac”).

Some obligations issued or guaranteed by U.S. government agencies and instrumentalities, including, for example, Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies, such as those securities issued by Fannie Mae, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency, while other obligations issued by or guaranteed by federal agencies, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury, while the U.S. government provides financial support to such U.S. government-sponsored federal agencies, no assurance can be given that the U.S. government will always do so, since the U.S. government is not so obligated by law. U.S. Treasury notes and bonds typically pay coupon interest semi-annually and repay the principal at maturity.

On September 7, 2008, the U.S. Treasury announced a federal takeover of Fannie Mae and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), placing the two federal instrumentalities in conservatorship. Under the takeover, the U.S. Treasury agreed to acquire \$1 billion of senior preferred stock of each instrumentality and obtained warrants for the purchase of common stock of each instrumentality (the “Senior Preferred Stock Purchase Agreement” or “Agreement”). Under the Agreement, the U.S. Treasury pledged to provide up to \$200 billion per instrumentality as needed, including the contribution of cash capital to the instrumentalities in the event their liabilities exceed their assets. This was intended to ensure that the instrumentalities maintain a positive net worth and meet their financial obligations, preventing mandatory triggering of receivership. On December 24, 2009, the U.S. Treasury announced that it was amending the Agreement to allow the \$200 billion cap on the U.S. Treasury’s funding commitment to increase as necessary to accommodate any cumulative reduction in net worth over the next three years. As a result of this Agreement, the investments of holders, including the Funds, of mortgage-backed securities and other obligations issued by Fannie Mae and Freddie Mac are protected.

The total public debt of the United States as a percentage of gross domestic product has grown rapidly since the beginning of the 2008–2009 financial downturn. Although high debt levels do not necessarily indicate or cause economic problems, they may create certain systemic risks if sound debt management practices are not implemented. A high national debt can raise concerns that the U.S. government will not be able to make principal or interest payments when they are due. This increase has also necessitated the need for the U.S. Congress to negotiate adjustments to the statutory debt limit to increase the cap on the amount the U.S. government is permitted to borrow to meet its existing obligations and finance current budget deficits. In August 2011, S&P lowered its long-term sovereign credit rating on the U.S. In explaining the downgrade at that time, S&P cited, among other reasons, controversy over raising the statutory debt limit and growth in public spending. On August 2, 2019, following passage by Congress, the President of the United States signed the Bipartisan Budget Act of 2019, which suspends the statutory debt limit through July 31, 2021. Any controversy or ongoing uncertainty regarding the statutory debt ceiling negotiations may impact the U.S. long-term sovereign credit rating and may cause market uncertainty. As a result, market prices and yields of securities supported by the full faith and credit of the U.S. government may be adversely affected.

Future Developments. The Board may, in the future, authorize a Fund to invest in securities contracts and investments other than those listed in this SAI and in the Funds’ Prospectus, provided they are consistent with the Fund’s investment objective and do not violate any investment restrictions or policies.

ADDITIONAL INDEX INFORMATION

During each reconstitution, securities are screened to determine whether they comply with the index methodologies and are eligible to be included in the Index. The date of the determination is sometimes referred to as the “Index measurement date” or the “Screening Point.” Based on this screening, securities that meet the Index requirements are added to the Index, and securities that do not meet such requirements are dropped from the Index.

Index Maintenance. Index maintenance for each Index occurs throughout the year and includes monitoring and implementing the adjustments for company additions and deletions, stock splits, corporate restructurings and other corporate actions. Corporate actions are generally implemented after the close of trading on the day prior to the ex-date of such corporate actions. To the extent reasonably practicable, such changes will be announced at least two days prior to their implementation.

Index Availability. The Indexes are calculated and disseminated throughout each day the New York Stock Exchange (“NYSE”) is open for trading.

Index Calculation Agent. To minimize any potential for conflicts caused by side-by-side management of each Fund’s underlying index by Vident Financial, LLC (the “Index Provider”) and each Fund by the Sub-Adviser, a wholly-owned subsidiary of the Index Provider, the Index Provider has retained an unaffiliated third-party service provider to calculate each Index (the “Calculation Agent”).

The Calculation Agent, using the applicable rules-based methodology, will calculate, maintain and disseminate the applicable Index(es) on a daily basis. The Index Provider will monitor the results produced by each Calculation Agent to help ensure that the Indexes are being calculated in accordance with their applicable rules-based methodology. In addition, the Index Provider has established policies and procedures designed to prevent non-public information regarding pending changes to the Indexes from being used or disseminated in an improper manner. Furthermore, the Sub-Adviser has established policies and procedures designed to prevent improper use and dissemination of non-public information about the Funds' portfolio strategies and to prevent the Funds' portfolio managers from having sole influence on the construction of the Index methodologies.

INVESTMENT RESTRICTIONS

The Trust has adopted the following investment restrictions as fundamental policies with respect to the Funds. These restrictions cannot be changed with respect to a Fund without the approval of the holders of a majority of the Fund's outstanding voting securities. For the purposes of the 1940 Act, a "majority of outstanding shares" means the vote of the lesser of: (1) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund's outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities of the Fund.

Except with the approval of a majority of the outstanding voting securities, the U.S. Bond Fund may not:

1. Concentrate its investments (*i.e.*, hold more than 25% of its total assets) in any industry or group of related industries, except that the Fund will concentrate to approximately the same extent that the Index concentrates in the securities of such particular industry or group of related industries. For purposes of this limitation, securities of the U.S. government (including its agencies and instrumentalities), repurchase agreements collateralized by U.S. government securities and securities of state or municipal governments and their political subdivisions are not considered to be issued by members of any industry.
2. Borrow money or issue senior securities (as defined under the 1940 Act), except to the extent permitted under the 1940 Act.
3. Make loans, except to the extent permitted under the 1940 Act.
4. Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments, except to the extent permitted under the 1940 Act. This shall not prevent the Fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business.
5. Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments, except to the extent permitted under the 1940 Act. This shall not prevent the Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities.
6. Underwrite securities issued by other persons, except to the extent permitted under the 1940 Act.
7. With respect to 75% of its total assets, purchase the securities of any one issuer if, immediately after and as a result of such purchase, (a) the value of the Fund's holdings in the securities of such issuer exceeds 5% of the value of the Fund's total assets, or (b) the Fund owns more than 10% of the outstanding voting securities of the issuer (with the exception that this restriction does not apply to the Fund's investments in the securities of the U.S. Government, or its agencies or instrumentalities, or other investment companies).

Except with the approval of a majority of the outstanding voting securities, the Equity Funds may not:

1. Purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities) if, as a result, more than 25% of the Fund's total assets would be invested in the securities of companies whose principal business activities are in the same industry, except that the Fund will invest more than 25% of its total assets in securities of the same industry to approximately the same extent that the Fund's underlying Index concentrates in the securities of a particular industry or group of industries.
2. Issue senior securities, except as permitted under the 1940 Act.
3. Borrow money, except as permitted under the 1940 Act.
4. Lend any security or make any other loan except as permitted under the 1940 Act. This means that no more than 33 ¹/₃% of its total assets would be lent to other parties. This limitation does not apply to purchases of debt securities or to repurchase agreements, or to acquisitions of loans, loan participations or other forms of debt instruments, permissible under the Fund's investment policies.
5. Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business).
6. Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities).

7. Act as an underwriter of another issuer's securities, except to the extent that the Fund may be considered an underwriter within the meaning of the Securities Act in the disposition of portfolio securities.
8. With respect to 75% of its total assets, purchase the securities of any one issuer if, immediately after and as a result of such purchase, (a) the value of the Fund's holdings in the securities of such issuer exceeds 5% of the value of the Fund's total assets, or (b) the Fund owns more than 10% of the outstanding voting securities of the issuer (with the exception that this restriction does not apply to the Fund's investments in the securities of the U.S. Government, or its agencies or instrumentalities, or other investment companies).

In addition to the investment restrictions adopted as fundamental policies as set forth above, each Fund observes the following non-fundamental restrictions, which may be changed without a shareholder vote.

1. Each Fund will not invest in illiquid investments if, as a result of such investment, more than 15% of its net assets would be invested in illiquid investments. An illiquid investment is any investment that the applicable Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment.
2. Under normal circumstances, at least 80% of the U.S. Bond Fund's total assets (exclusive of collateral held from securities lending) will be invested in the component securities of its Index and TBA securities representing such component securities. Under normal circumstances, at least 80% of the U.S. Equity Fund's total assets (exclusive of collateral held from securities lending) will be invested in the component securities of its Index. Under normal circumstances, at least 80% of the International Equity Fund's total assets (exclusive of collateral held from securities lending) will be invested in the component securities of its Index and depositary receipts representing such component securities.
3. Under normal circumstances, at least 80% of the net assets, plus borrowings for investment purposes, of the U.S. Equity Fund will be invested in equity securities that are principally traded in the United States. Under normal circumstances, at least 80% of the net assets, plus borrowings for investment purposes, of the U.S. Bond Fund will be invested in debt instruments that are principally traded in the United States. Under normal circumstances, at least 80% of the net assets, plus borrowings for investment purposes, of the International Equity Fund will be invested in equity securities. With respect to the foregoing policies, the Funds define "equity securities" to mean common and preferred stocks, rights, warrants, depositary receipts, equity interests in REITs, and master limited partnerships. The foregoing policies may be changed without shareholder approval upon 60 days' written notice to the applicable shareholders.

If a percentage limitation is adhered to at the time of investment or contract, a later increase or decrease in percentage resulting from any change in value or total or net assets will not result in a violation of such restriction, except that the percentage limitation with respect to the borrowing of money will be observed continuously.

EXCHANGE LISTING AND TRADING

Shares are listed for trading and trade throughout the day on the Exchange.

There can be no assurance that a Fund will continue to meet the requirements of the Exchange necessary to maintain the listing of Shares. The Exchange will consider the suspension of trading in, and will initiate delisting proceedings of, the Shares if any of the requirements set forth in the Exchange rules, including compliance with Rule 6c-11(c) under the 1940 Act, are not continuously maintained or such other event shall occur or condition shall exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of a Fund from listing and trading upon termination of a Fund.

The Trust reserves the right to adjust the price levels of Shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

MANAGEMENT OF THE TRUST

Board Responsibilities. The management and affairs of the Trust and its series are overseen by the Board, which elects the officers of the Trust who are responsible for administering the day-to-day operations of the Trust and the Funds. The Board has approved contracts, as described below, under which certain companies provide essential services to the Trust.

The day-to-day business of the Trust, including the management of risk, is performed by third-party service providers, such as the Adviser, the Sub-Adviser, the Distributor, and the Administrator. The Board is responsible for overseeing the Trust's service providers and, thus, has oversight responsibility with respect to risk management performed by those service providers. Risk management seeks to identify and address risks, *i.e.*, events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of a Fund. The Funds and their service providers employ a variety of processes, procedures and controls to identify such events or circumstances, to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust's business (*e.g.*, the Sub-Adviser is responsible for the day-to-day management of each Fund's portfolio

investments) and, consequently, for managing the risks associated with that business. The Board has emphasized to the Funds' service providers the importance of maintaining vigorous risk management.

The Board's role in risk oversight begins before the inception of the Funds, at which time certain of the Funds' service providers present the Board with information concerning the investment objectives, strategies, and risks of the Funds as well as proposed investment limitations for the Funds. Additionally, the Adviser and Sub-Adviser provide the Board with an overview of, among other things, its investment philosophy, brokerage practices, and compliance infrastructure. Thereafter, the Board continues its oversight function as various personnel, including the Trust's Chief Compliance Officer, as well as personnel of the Sub-Adviser, and other service providers such as the Funds' independent accountants, make periodic reports to the Audit Committee or to the Board with respect to various aspects of risk management. The Board and the Audit Committee oversee efforts by management and service providers to manage risks to which the Funds may be exposed.

The Board is responsible for overseeing the nature, extent, and quality of the services provided to the Funds by the Adviser and the Sub-Adviser and receives information about those services at its regular meetings. In addition, on an annual basis (following the initial two-year period), in connection with its consideration of whether to renew the Investment Advisory Agreement with the Adviser, and Sub-Advisory Agreement with the Sub-Adviser, the Board or its designee may meet with the Adviser and/or Sub-Adviser to review such services. Among other things, the Board regularly considers the Adviser's and Sub-Adviser's adherence to each Fund's investment restrictions and compliance with various Fund policies and procedures and with applicable securities regulations. The Board also reviews information about each Fund's performance and each Fund's investments, including, for example, portfolio holdings schedules.

The Trust's Chief Compliance Officer reports regularly to the Board to review and discuss compliance issues and Fund and Adviser or Sub-Adviser risk assessments. At least annually, the Trust's Chief Compliance Officer, as well as personnel of the Adviser, provides the Board with a report reviewing the adequacy and effectiveness of the Trust's policies and procedures and those of its service providers, including the Adviser and the Sub-Adviser. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; any material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and any material compliance matters since the date of the last report.

The Board receives reports from the Funds' service providers regarding operational risks and risks related to the valuation and liquidity of portfolio securities. Annually, the Funds' independent registered public accounting firm reviews with the Audit Committee its audit of the Funds' financial statements, focusing on major areas of risk encountered by the Funds and noting any significant deficiencies or material weaknesses in the Funds' internal controls. Additionally, in connection with its oversight function, the Board oversees Fund management's implementation of disclosure controls and procedures, which are designed to ensure that information required to be disclosed by the Trust in its periodic reports with the SEC are recorded, processed, summarized, and reported within the required time periods. The Board also oversees the Trust's internal controls over financial reporting, which comprise policies and procedures designed to provide reasonable assurance regarding the reliability of the Trust's financial reporting and the preparation of the Trust's financial statements.

From their review of these reports and discussions with the Adviser and Sub-Adviser, the Chief Compliance Officer, independent registered public accounting firm and other service providers, the Board and the Audit Committee learn in detail about the material risks of each Fund, thereby facilitating a dialogue about how management and service providers identify and mitigate those risks.

The Board recognizes that not all risks that may affect a Fund can be identified and/or quantified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve a Fund's goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, reports received by the Board as to risk management matters are typically summaries of the relevant information. Most of the Funds' investment management and business affairs are carried out by or through the Adviser, Sub-Adviser, and other service providers, each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from the Funds' and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board's ability to monitor and manage risk, as a practical matter, is subject to limitations.

Members of the Board. There are four members of the Board, three of whom are not interested persons of the Trust, as that term is defined in the 1940 Act (the "Independent Trustees"). Mr. Michael A. Castino serves as Chairman of the Board and is an interested person of the Trust, and Mr. Leonard M. Rush serves as the Trust's Lead Independent Trustee. As Lead Independent Trustee, Mr. Rush acts as a spokesperson for the Independent Trustees in between meetings of the Board, serves as a liaison for the Independent Trustees with the Trust's service providers, officers, and legal counsel to discuss ideas informally, and participates in setting the agenda for meetings of the Board and separate meetings or executive sessions of the Independent Trustees.

The Board is comprised of a super-majority (75 percent) of Independent Trustees. There is an Audit Committee of the Board that is chaired by an Independent Trustee and comprised solely of Independent Trustees. The Audit Committee chair presides at the Audit Committee meetings, participates in formulating agendas for Audit Committee meetings, and coordinates with management to serve as a liaison between the Independent Trustees and management on matters within the scope of responsibilities of the Audit Committee as

set forth in its Board-approved charter. The Trust has determined its leadership structure is appropriate given the specific characteristics and circumstances of the Trust. The Trust made this determination in consideration of, among other things, the fact that the Independent Trustees of the Trust constitute a super-majority of the Board, the number of Independent Trustees that constitute the Board, the amount of assets under management in the Trust, and the number of funds overseen by the Board. The Board also believes that its leadership structure facilitates the orderly and efficient flow of information to the Independent Trustees from Fund management.

Additional information about each Trustee of the Trust is set forth below. The address of each Trustee of the Trust is c/o U.S. Bank Global Fund Services, 615 E. Michigan Street, Milwaukee, WI 53202.

Name and Year of Birth	Position Held with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee	Other Directorships Held by Trustee During Past 5 Years
Independent Trustees					
Leonard M. Rush, CPA Born: 1946	Lead Independent Trustee and Audit Committee Chairman	Indefinite term; since 2012	Retired; formerly Chief Financial Officer, Robert W. Baird & Co. Incorporated (wealth management firm) (2000–2011).	47	Independent Trustee, Managed Portfolio Series (37 portfolios) (since 2011).
David A. Massart Born: 1967	Trustee	Indefinite term; since 2012	Co-Founder, President, and Chief Investment Strategist, Next Generation Wealth Management, Inc. (since 2005).	47	Independent Trustee, Managed Portfolio Series (37 portfolios) (since 2011).
Janet D. Olsen Born: 1956	Trustee	Indefinite term; since 2018	Retired; formerly Managing Director and General Counsel, Artisan Partners Limited Partnership (investment adviser) (2000–2013); Executive Vice President and General Counsel, Artisan Partners Asset Management Inc. (2012–2013); Vice President and General Counsel, Artisan Funds, Inc. (investment company) (2001–2012).	47	Independent Trustee, PPM Funds (9 portfolios) (since 2018).
Interested Trustee					
Michael A. Castino Born: 1967	Trustee and Chairman	Indefinite term; Trustee since 2014; Chairman since 2013	Senior Vice President, U.S. Bancorp Fund Services, LLC (since 2013); Managing Director of Index Services, Zacks Investment Management (2011–2013).	47	None

Individual Trustee Qualifications. The Trust has concluded that each of the Trustees should serve on the Board because of their ability to review and understand information about the Funds provided to them by management, to identify and request other information they may deem relevant to the performance of their duties, to question management and other service providers regarding material factors bearing on the management and administration of the Funds, and to exercise their business judgment in a manner that serves the best interests of each Fund’s shareholders. The Trust has concluded that each of the Trustees should serve as a Trustee based on his or her own experience, qualifications, attributes and skills as described below.

The Trust has concluded that Mr. Rush should serve as a Trustee because of his substantial industry experience, including serving in several different senior executive roles at various global financial services firms, and the experience he has gained as serving as trustee of another investment company trust since 2011. He most recently served as Managing Director and Chief Financial Officer of Robert W. Baird & Co. Incorporated and several other affiliated entities and served as the Treasurer for Baird Funds. He also served as the Chief Financial Officer for Fidelity Investments’ four broker-dealers and has substantial experience with mutual fund and investment advisory organizations and related businesses, including Vice President and Head of Compliance for Fidelity Investments, a Vice President at Credit Suisse First Boston, a Manager with Goldman Sachs, & Co. and a Senior Manager with Deloitte & Touche. Mr. Rush has been determined to qualify as an Audit Committee Financial Expert for the Trust.

The Trust has concluded that Mr. Massart should serve as a Trustee because of his substantial industry experience, including over two decades working with high net worth individuals, families, trusts, and retirement accounts to make strategic and tactical asset allocation decisions, evaluate and select investment managers, and manage complex client relationships, and the experience he has gained as serving as trustee of another investment company trust since 2011. He is currently the President and Chief Investment Strategist of the SEC registered investment advisory firm he co-founded. Previously, he served as Managing Director of Strong Private Client and as a Manager of Wells Fargo Investments, LLC.

The Trust has concluded that Ms. Olsen should serve as a Trustee because of her substantial industry experience, including over a decade serving as a senior executive of an investment management firm and a related public company, and the experience she has gained by serving as an executive officer of another investment company from 2001 to 2012. Ms. Olsen most recently served as Managing Director and General Counsel of Artisan Partners Limited Partnership, a registered investment adviser serving primarily investment companies and institutional investors, and several affiliated entities, including its general partner, Artisan Partners Asset Management Inc. (NYSE: APAM), and as an executive officer of Artisan Funds Inc.

The Trust has concluded that Mr. Castino should serve as Trustee because of the experience he gained as Chairman of the Trust since 2013, as a senior officer of U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services” or the “Transfer Agent”), since 2012, and in his past roles with investment management firms and indexing firms involved with ETFs, as well as his experience in and knowledge of the financial services industry.

In its periodic assessment of the effectiveness of the Board, the Board considers the complementary individual skills and experience of the individual Trustees primarily in the broader context of the Board’s overall composition so that the Board, as a body, possesses the appropriate (and appropriately diverse) skills and experience to oversee the business of the funds.

Board Committees. The Board has established the following standing committees of the Board:

Audit Committee. The Board has a standing Audit Committee that is composed of each of the Independent Trustees of the Trust. The Audit Committee operates under a written charter approved by the Board. The principal responsibilities of the Audit Committee include: recommending which firm to engage as the Funds’ independent registered public accounting firm and whether to terminate this relationship; reviewing the independent registered public accounting firm’s compensation, the proposed scope and terms of its engagement, and the firm’s independence; pre-approving audit and non-audit services provided by the Funds’ independent registered public accounting firm to the Trust and certain other affiliated entities; serving as a channel of communication between the independent registered public accounting firm and the Trustees; reviewing the results of each external audit, including any qualifications in the independent registered public accounting firm’s opinion, any related management letter, management’s responses to recommendations made by the independent registered public accounting firm in connection with the audit, reports submitted to the Committee by the internal auditing department of the Trust’s Administrator that are material to the Trust as a whole, if any, and management’s responses to any such reports; reviewing the Funds’ audited financial statements and considering any significant disputes between the Trust’s management and the independent registered public accounting firm that arose in connection with the preparation of those financial statements; considering, in consultation with the independent registered public accounting firm and the Trust’s senior internal accounting executive, if any, the independent registered public accounting firms’ report on the adequacy of the Trust’s internal financial controls; reviewing, in consultation with the Funds’ independent registered public accounting firm, major changes regarding auditing and accounting principles and practices to be followed when preparing the Funds’ financial statements; and other audit related matters. During the fiscal year ended August 31, 2020, the Audit Committee met four times.

The Audit Committee also serves as the Qualified Legal Compliance Committee (“QLCC”) for the Trust for the purpose of compliance with Rules 205.2(k) and 205.3(c) of the Code of Federal Regulations, regarding alternative reporting procedures for attorneys retained or employed by an issuer who appear and practice before the SEC on behalf of the issuer (the “issuer attorneys”). An issuer attorney who becomes aware of evidence of a material violation by the Trust, or by any officer, director, employee, or agent of the Trust, may report evidence of such material violation to the QLCC as an alternative to the reporting requirements of Rule 205.3(b) (which requires reporting to the chief legal officer and potentially “up the ladder” to other entities).

Nominating Committee. The Board has a standing Nominating Committee that is composed of each of the Independent Trustees of the Trust. The Nominating Committee operates under a written charter approved by the Board. The principal responsibility of the Nominating Committee is to consider, recommend and nominate candidates to fill vacancies on the Trust’s Board, if any. The Nominating Committee generally will not consider nominees recommended by shareholders. The Nominating Committee meets periodically, as necessary. During the fiscal year ended August 31, 2020, the Nominating Committee met one time.

Valuation Committee. The Board has delegated day-to-day valuation issues to a Valuation Committee that is comprised of certain officers of the Trust. Although the Valuation Committee is not a committee of the Board (*i.e.*, no Trustee is a member of the Valuation Committee), the Valuation Committee’s membership is appointed by the Board and its charter and applicable procedures are approved by the Board. The function of the Valuation Committee is to value securities held by any series of the Trust for which current and reliable market quotations are not readily available. Such securities are valued at their respective fair values as determined in good faith by the Valuation Committee and the actions of the Valuation Committee are subsequently reviewed and ratified by the Board. The Valuation Committee meets as necessary.

Principal Officers of the Trust

The officers of the Trust conduct and supervise its daily business. The address of each officer of the Trust is c/o U.S. Bank Global Fund Services, 615 E. Michigan Street, Milwaukee, WI 53202. Additional information about the Trust's officers is as follows:

Name and Year of Birth	Position(s) Held with the Trust	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years
Kristina R. Nelson Born: 1982	President	Indefinite term; since 2019	Senior Vice President, U.S. Bancorp Fund Services, LLC (since 2020); Vice President, U.S. Bancorp Fund Services, LLC (2014–2020); Assistant Vice President, U.S. Bancorp Fund Services, LLC (2013–2014).
Michael D. Barolsky Born: 1981	Vice President and Secretary	Indefinite term; since 2014 (other roles since 2013)	Senior Vice President, U.S. Bancorp Fund Services, LLC (since 2019); Vice President, U.S. Bancorp Fund Services, LLC (2012–2019); Associate, Thompson Hine LLP (law firm) (2008–2012).
James R. Butz Born: 1982	Chief Compliance Officer and Anti-Money Laundering Officer	Indefinite term; since 2015	Senior Vice President, U.S. Bancorp Fund Services, LLC (since 2015); Vice President, U.S. Bancorp Fund Services, LLC (2014–2015); Assistant Vice President, U.S. Bancorp Fund Services, LLC (2011–2014).
Kristen M. Weitzel, CPA Born: 1977	Treasurer	Indefinite term; since 2014 (other roles since 2013)	Vice President, U.S. Bancorp Fund Services, LLC (since 2015); Assistant Vice President, U.S. Bancorp Fund Services, LLC (2011–2015); Manager, PricewaterhouseCoopers LLP (accounting firm) (2005–2011).
Jessica L. Vorbeck Born: 1984	Assistant Treasurer	Indefinite term; since 2020	Officer, U.S. Bancorp Fund Services, LLC (since 2018; 2014-2017).
Elizabeth A. Winske Born: 1983	Assistant Treasurer	Indefinite term; since 2017	Vice President, U.S. Bancorp Fund Services, LLC (since 2020); Assistant Vice President, U.S. Bancorp Fund Services, LLC (2016–2020); Officer, U.S. Bancorp Fund Services, LLC (2012–2016).
Jason E. Shlensky Born: 1987	Assistant Treasurer	Indefinite term; since 2019	Assistant Vice President, U.S. Bancorp Fund Services, LLC (since 2019); Officer, U.S. Bancorp Fund Services, LLC (2014–2019).
Isabella K. Zoller Born: 1994	Assistant Secretary	Indefinite term; since 2020	Regulatory Administration Attorney, U.S. Bancorp Fund Services, LLC (since 2019); Regulatory Administration Intern, U.S. Bancorp Fund Services, LLC (2018–2019); Law Student (2016–2019).

Trustee Ownership of Shares. The Funds are required to show the dollar amount ranges of each Trustee's "beneficial ownership" of Shares and each other series of the Trust as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. "Beneficial ownership" is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act.

As of December 31, 2019, no Trustees owned Shares of the Funds or shares of any other series of the Trust.

Board Compensation. The Independent Trustees each receive an annual trustee fee of \$138,000 for attendance at the four regularly scheduled quarterly meetings and one annual meeting, if necessary, and receive additional compensation for each additional meeting attended of \$2,000, as well as reimbursement for travel and other out-of-pocket expenses incurred in connection with attendance at Board meetings. The Lead Independent Trustee receives an additional annual fee of \$10,000. The Chairman of the Audit Committee receives an additional annual fee of \$8,000. The Trust has no pension or retirement plan.

The following table shows the compensation earned by each Trustee during the fiscal year ended August 31, 2020. Independent Trustee fees are paid by the adviser to each series of the Trust and not by the Funds. Trustee compensation does not include reimbursed out-of-pocket expenses in connection with attendance at meetings.

Name	Aggregate Compensation From Fund	Total Compensation From Fund Complex Paid to Trustees
Interested Trustee		
Michael A. Castino	\$0	\$0
Independent Trustees		
David A. Massart	\$0	\$150,417
Janet D. Olsen	\$0	\$150,417
Leonard M. Rush, CPA	\$0	\$168,417

PRINCIPAL SHAREHOLDERS, CONTROL PERSONS, AND MANAGEMENT OWNERSHIP

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding Shares of a Fund. A control person is a shareholder that owns beneficially or through controlled companies more than 25% of the voting securities of a company or acknowledges the existence of control. Shareholders owning voting securities in excess of 25% may determine the outcome of any matter affecting and voted on by shareholders of a Fund.

As of December 1, 2020, no Trustees and officers of the Trust owned Shares of the Funds, and the following shareholders were considered to be principal shareholders and control persons of each Fund:

U.S. Bond Fund

Name and Address	% Ownership*	Type of Ownership
National Financial Services, LLC 200 Liberty Street New York, NY 10281	91.52%	Record

* Based on information reported on Form 13F as of September 30, 2020 (the most recent available date), the Trust believes Thrivent Trust Company owns a majority of the Fund's shares as of December 1, 2020.

U.S. Equity Fund

Name and Address	% Ownership*	Type of Ownership
National Financial Services, LLC 200 Liberty Street New York, NY 10281	96.30%	Record

* Based on information reported on Form 13F as of September 30, 2020 (the most recent available date), the Trust believes Thrivent Trust Company owns a majority of the Fund's shares as of December 1, 2020.

International Equity Fund

Name and Address	% Ownership*	Type of Ownership
National Financial Services, LLC 200 Liberty Street New York, NY 10281	96.82%	Record

* Based on information reported on Form 13F as of September 30, 2020 (the most recent available date), the Trust believes Thrivent Trust Company owns a majority of the Fund's shares as of December 1, 2020.

CODES OF ETHICS

The Trust, the Adviser, the Sub-Adviser, and the Distributor (as defined under "The Distributor") have each adopted codes of ethics pursuant to Rule 17j-1 of the 1940 Act. These codes of ethics are designed to prevent affiliated persons of the Trust, the Adviser, the Sub-Adviser and the Distributor from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Funds (which may also be held by persons subject to the codes of ethics). Each Code of Ethics permits personnel subject to that Code of Ethics to invest in securities for their personal investment accounts, subject to certain limitations, including limitations related to securities that may be purchased or held by the Funds.

There can be no assurance that the codes of ethics will be effective in preventing such activities. Each code of ethics may be examined at the office of the SEC in Washington, D.C. or on the Internet at the SEC's website at <http://www.sec.gov>.

PROXY VOTING POLICIES

The Funds have delegated proxy voting responsibilities to the Adviser, subject to the Board's oversight. In delegating proxy responsibilities, the Board has directed that proxies be voted consistent with each Fund's and its shareholders' best interests and in compliance with all applicable proxy voting rules and regulations. The Adviser has adopted proxy voting policies and guidelines for this purpose ("Proxy Voting Policies") and has engaged a third-party proxy solicitation firm to assist with voting proxies in a timely manner and making voting recommendations under guidelines adopted by the Adviser. A copy of the Proxy Voting Policies is set forth in Appendix A to this SAI. The Trust's Chief Compliance Officer is responsible for monitoring the effectiveness of the Proxy Voting Policies. The Proxy Voting Policies have been adopted by the Trust as the policies and procedures that the Adviser will use when voting proxies on behalf of a Fund.

The Proxy Voting Policies address, among other things, material conflicts of interest that may arise between the interests of the Funds and the interests of the Adviser. The Proxy Voting Policies will ensure that all issues brought to shareholders are analyzed in light of the Adviser's fiduciary responsibilities.

When available, information on how the Funds voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 will be available (1) without charge, upon request, by calling 1-800-617-0004 and (2) on the SEC's website at www.sec.gov.

INVESTMENT ADVISER AND SUB-ADVISER

Investment Adviser

Vident Advisory, LLC, a Delaware limited liability company located at 1125 Sanctuary Parkway, Suite 515, Alpharetta, Georgia 30009, serves as the investment adviser to the Funds. The Adviser was formed in 2016 and commenced operations and registered with the SEC as an investment adviser in 2019, and is a wholly-owned subsidiary of Vident Financial, LLC. Vident Financial, LLC was formed in 2013 to develop and license investment market solutions (indices and funds) based on strategies that combine sophisticated risk-balancing methodologies, economic freedom metrics, valuation, and investor behavior. Vident Financial, LLC is a wholly-owned subsidiary of the Vident Investors' Oversight Trust. Vince L. Birley, Brian Shepler, and Mohammad Baki serve as the trustees of the Vident Investors' Oversight Trust.

Pursuant to an Investment Advisory Agreement (the "Advisory Agreement") between the Trust, on behalf of the Funds, and the Adviser, the Adviser provides investment advice to the Funds, oversees the day-to-day operations of the Funds, subject to the direction and control of the Board and the officers of the Trust, and provides office facilities and equipment and certain clerical, bookkeeping and administrative services. The Adviser bears the costs of all advisory and substantially all non-advisory services required to operate the Funds, in exchange for a single unitary management fee from each Fund. For services provided to each Fund, the applicable Fund pays the Adviser the following unitary management fee at an annual rate based on the Fund's average daily net assets:

Name of Fund	Management Fee ¹
Vident Core U.S. Bond Strategy ETF	0.41%
Vident Core U.S. Equity Fund	0.50%
Vident International Equity Fund	0.61%

¹ The Adviser has contractually agreed to waive two basis points (0.02%) of its unified management fee for each Fund until at least December 31, 2021.

As a result of the fee waiver agreement, for the period February 1, 2020 through August 31, 2020, the Adviser received management fees equal to 0.40% of the U.S. Bond Fund's average daily net assets, 0.49% of the U.S. Equity Fund's average daily net assets, and 0.60% of the International Equity Fund's average daily net assets.

Prior to April 1, 2019, Exchange Traded Concepts, LLC ("ETC") served as the investment adviser to the Funds and received management fees under the same unitary management fee schedule described above (excluding fee waivers).

The Advisory Agreement with respect to the Funds will continue in force for an initial period of two years. Thereafter, the Advisory Agreement will be renewable from year to year with respect to a Fund, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of those Trustees who are not "interested persons" of the Adviser or the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding Shares of the applicable Fund. The Advisory Agreement automatically terminates on assignment and is terminable on a 60-day written notice either by the Trust or the Adviser.

The Adviser shall not be liable to the Trust or any shareholder for anything done or omitted by it, except acts or omissions involving willful misfeasance, bad faith, negligence or reckless disregard of the duties imposed upon it by its agreement with the Trust or for any losses that may be sustained in the purchase, holding or sale of any security.

The table below shows advisory fees (net of any fee waivers) paid by the Funds for the fiscal years ended August 31, as applicable to each Fund:

Name of Fund	2020	2019 ⁴	2018
Vident Core U.S. Bond Strategy ETF	\$1,754,346 ¹	\$1,991,728	\$2,433,464
Vident Core U.S. Equity Fund	\$1,992,945 ²	\$2,604,350	\$3,209,344
Vident International Equity Fund	\$3,196,696 ³	\$3,560,050	\$4,313,713

¹ Gross management fees earned by the Adviser during this period was \$1,803,273.

² Gross management fees earned by the Adviser during this period was \$2,033,173.

³ Gross management fees earned by the Adviser during this period was \$3,252,186.

⁴ For the period from April 1, 2019 to August 31, 2019, the Fund paid the Adviser \$833,139, \$1,041,889, and \$1,505,862 for its advisory services for the U.S. Bond Fund, U.S. Equity Fund, and International Equity Fund, respectively.

Sub-Adviser

The Trust, on behalf of the Funds, and the Adviser have retained Vident Investment Advisory, LLC (“VIA” or the “Sub-Adviser”), 1125 Sanctuary Parkway, Suite 515, Alpharetta, Georgia 30009, to serve as sub-adviser for the Funds. The Sub-Adviser was established in 2014 and is a wholly-owned subsidiary of Vident Financial, LLC. See “[Investment Adviser](#)” above for more details regarding Vident Financial.

Pursuant to a Sub-Advisory Agreement between the Trust, the Adviser, and the Sub-Adviser (the “Sub-Advisory Agreement”), the Sub-Adviser is responsible for trading portfolio securities on behalf of the Funds, including selecting broker-dealers to execute purchase and sale transactions as instructed by the Adviser or in connection with any rebalancing or reconstitution of a Fund’s respective Index, subject to the supervision of the Adviser and the Board. For the services it provides to the Funds, the Sub-Adviser is compensated by the Adviser from the management fees paid by the Funds to the Adviser.

The Sub-Advisory Agreement will continue in force for an initial period of two years. Thereafter, the Sub-Advisory Agreement is renewable from year to year with respect to a Fund, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of those Trustees who are not “interested persons” of the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding Shares of the applicable Fund. The Sub-Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by the Board or, with respect to a Fund, by a majority of the outstanding Shares, or by the Adviser, in each case upon 60 days’ written notice to the Sub-Adviser, or by the Sub-Adviser on 90 days’ written notice to the Adviser and the Trust. The Sub-Advisory Agreement provides that the Sub-Adviser shall not be protected against any liability to the Trust or its shareholders by reason of willful misfeasance, bad faith or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

VIA was entitled to receive the following sub-advisory fees for the fiscal years ended August 31, as applicable to each Fund. The Adviser was responsible for paying the amounts in the table below for the fiscal year ended August 31, 2020 and the period from April 1, 2019 to August 31, 2019. ETC was responsible for paying the amounts in the table below for the fiscal year ended August 31, 2018 and the period from September 1, 2018 to March 31, 2019.

Name of Fund	2020	2019*	2018
Vident Core U.S. Bond Strategy ETF	\$249,267	\$267,554	\$328,912
Vident Core U.S. Equity Fund	\$174,272	\$208,348	\$272,847
Vident International Equity Fund	\$437,193	\$458,530	\$549,664

* For the period from April 1, 2019 to August 31, 2019, the Adviser paid the Sub-Adviser \$112,082, \$83,351, and \$193,763 for its sub-advisory services for the U.S. Bond Fund, U.S. Equity Fund, and International Equity Fund, respectively.

PORTFOLIO MANAGERS

Compensation

The Funds’ portfolio managers receive a fixed base salary and discretionary bonus that are not tied to the performance of the Funds.

Share Ownership

The Funds are required to show the dollar ranges of the portfolio managers’ “beneficial ownership” of Shares of each Fund as of the end of the most recently completed fiscal year or a more recent date for a new portfolio manager. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. As of August 31, 2020, the Portfolio Managers did not beneficially own Shares of any Fund.

Other Accounts

In addition to the Funds, the portfolio managers managed the following other accounts as of August 31, 2020, none of which were subject to a performance fee:

Portfolio Manager	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts
Jim Iredale, CFA	1	\$223.8 million	0	\$0	0	\$0
Rafael Zayas, CFA	26	\$3.5 billion	0	\$0	1	\$13.7 million
Austin Wen, CFA	29	\$4.0 billion	1	\$119.7 million	1	\$13.7 million
Ryan Dofflemeyer*	1	\$1.5 billion	6	\$109.2 million	0	\$0

* As of November 30, 2020 because Mr. Dofflemeyer was named a portfolio manager in December 2020.

Conflicts of Interest

A portfolio manager's management of "other accounts" may give rise to potential conflicts of interest in connection with their management of the Funds' investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objectives as a Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a portfolio manager could favor one account over another. Another potential conflict could include a portfolio manager's knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Funds they manage. However, the Sub-Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts the Sub-Adviser manages are fairly and equitably allocated.

Conflicts may also arise because portfolio decisions regarding a Fund may benefit other accounts managed by the Sub-Adviser or its affiliates. For example, the sale of a long position or establishment of a short position by a fund sub-advised by the Sub-Adviser may impair the price of the same security sold short by (and therefore benefit) one or more other funds sub-advised by the Sub-Adviser, and the purchase of a security or covering of a short position in a security by a Fund may increase the price of the same security held by (and therefore benefit) one or more other funds sub-advised by the Sub-Adviser.

Conflicts may also arise when selecting other funds sub-advised by the Sub-Adviser as investments for a Fund because (i) the fees paid by the Adviser to the Sub-Adviser for sub-advising certain other funds may be higher than the fees paid by the applicable Fund or another fund and (ii) the fees received by the Sub-Adviser and its affiliates as index provider may be higher for some funds than for the applicable Fund or another fund.

THE DISTRIBUTOR

The Trust and ALPS Distributors, Inc. (the "Distributor") are parties to a distribution agreement ("Distribution Agreement"), whereby the Distributor acts as principal underwriter for the Trust and distributes Shares. Shares are continuously offered for sale by the Distributor only in Creation Units. The Distributor will not distribute Shares in amounts less than a Creation Unit and does not maintain a secondary market in Shares. The principal business address of the Distributor is 1290 Broadway, Suite 1000, Denver, Colorado 80203.

Under the Distribution Agreement, the Distributor, as agent for the Trust, will review orders for the purchase and redemption of Creation Units, provided that any subscriptions and orders will not be binding on the Trust until accepted by the Trust. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934 (the "Exchange Act") and a member of the Financial Industry Regulatory Authority ("FINRA").

The Distributor may also enter into agreements with securities dealers ("Soliciting Dealers") who will solicit purchases of Creation Units of Shares. Such Soliciting Dealers may also be Authorized Participants (as discussed in "Procedures for Purchase of Creation Units" below) or DTC participants (as defined below).

The Distribution Agreement will continue for two years from its effective date and is renewable annually thereafter. The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of the Fund and (ii) by the vote of a majority of the Independent Trustees who have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement is terminable without penalty by the Trust on 60 days' written notice when authorized either by majority vote of its outstanding voting Shares or by a vote of a majority of its Board (including a majority of the Independent Trustees), or by the Distributor on 60 days' written notice, and will automatically terminate in the event of its assignment. The Distribution Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of the Distributor, or reckless disregard by it of its obligations thereunder, the Distributor shall not be liable for any action or failure to act in accordance with its duties thereunder.

Intermediary Compensation. The Adviser, the Sub-Adviser, or their affiliates, out of their own resources and not out of Fund assets (*i.e.*, without additional cost to the Fund or its shareholders), may pay certain broker dealers, banks and other financial intermediaries ("Intermediaries") for certain activities related to a Fund, including participation in activities that are designed to make Intermediaries more knowledgeable about exchange traded products, including the Fund, or for other activities, such as marketing and educational training or support. These arrangements are not financed by a Fund and, thus, do not result in increased Fund expenses. They are not reflected in the fees and expenses listed in the fees and expenses sections of a Fund's Prospectus and they do not change the price paid by investors for the purchase of Shares or the amount received by a shareholder as proceeds from the redemption of Shares.

Such compensation may be paid to Intermediaries that provide services to a Fund, including marketing and education support (such as through conferences, webinars and printed communications). The Adviser and Sub-Adviser periodically assess the advisability of continuing to make these payments. Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your adviser, broker or other investment professional, if any, may also be significant to such adviser, broker or investment professional. Because an Intermediary may make decisions about what investment options it will make available or recommend, and what services to provide in connection with various products, based on payments it receives or is eligible to receive, such payments create conflicts of interest between the Intermediary and its clients. For example, these financial incentives may cause

the Intermediary to recommend a Fund over other investments. The same conflict of interest exists with respect to your financial adviser, broker or investment professional if he or she receives similar payments from his or her Intermediary firm.

Intermediary information is current only as of the date of this SAI. Please contact your adviser, broker, or other investment professional for more information regarding any payments his or her Intermediary firm may receive. Any payments made by the Adviser, Sub-Adviser or their affiliates to an Intermediary may create the incentive for an Intermediary to encourage customers to buy Shares.

If you have any additional questions, please call 1-800-617-0004.

Distribution and Service Plan. The Trust has adopted a Distribution and Service Plan (the “Plan”) in accordance with the provisions of Rule 12b-1 under the 1940 Act, which regulates circumstances under which an investment company may directly or indirectly bear expenses relating to the distribution of its shares. No payments pursuant to the Plan are expected to be made during the twelve (12) month period from the date of this SAI. Rule 12b-1 fees to be paid by a Fund under the Plan may only be imposed after approval by the Board.

Continuance of the Plan must be approved annually by a majority of the Trustees of the Trust and by a majority of the Trustees who are not interested persons (as defined in the 1940 Act) of the Trust and have no direct or indirect financial interest in the Plan or in any agreements related to the Plan (“Qualified Trustees”). The Plan requires that quarterly written reports of amounts spent under the Plan and the purposes of such expenditures be furnished to and reviewed by the Trustees. The Plan may not be amended to increase materially the amount that may be spent thereunder without approval by a majority of the outstanding Shares of a Fund. All material amendments of the Plan will require approval by a majority of the Trustees of the Trust and of the Qualified Trustees.

The Plan provides that each Fund pays the Distributor an annual fee of up to a maximum of 0.25% of the average daily net assets of the Shares. Under the Plan, the Distributor may make payments pursuant to written agreements to financial institutions and intermediaries such as banks, savings and loan associations and insurance companies including, without limit, investment counselors, broker-dealers and the Distributor’s affiliates and subsidiaries (collectively, “Agents”) as compensation for services and reimbursement of expenses incurred in connection with distribution assistance. The Plan is characterized as a compensation plan since the distribution fee will be paid to the Distributor without regard to the distribution expenses incurred by the Distributor or the amount of payments made to other financial institutions and intermediaries. The Trust intends to operate the Plan in accordance with its terms and with the FINRA rules concerning sales charges.

Under the Plan, subject to the limitations of applicable law and regulations, each Fund is authorized to compensate the Distributor up to the maximum amount to finance any activity primarily intended to result in the sale of Creation Units of the Fund or for providing or arranging for others to provide shareholder services and for the maintenance of shareholder accounts. Such activities may include, but are not limited to: (i) delivering copies of a Fund’s then current reports, prospectuses, notices, and similar materials, to prospective purchasers of Creation Units; (ii) marketing and promotional services, including advertising; (iii) paying the costs of and compensating others, including Authorized Participants with whom the Distributor has entered into written Participant Agreements (as defined below), for performing shareholder servicing on behalf of a Fund; (iv) compensating certain Authorized Participants for providing assistance in distributing the Creation Units of a Fund, including the travel and communication expenses and salaries and/or commissions of sales personnel in connection with the distribution of the Creation Units of a Fund; (v) payments to financial institutions and intermediaries such as banks, savings and loan associations, insurance companies and investment counselors, broker-dealers, mutual fund supermarkets and the affiliates and subsidiaries of the Trust’s service providers as compensation for services or reimbursement of expenses incurred in connection with distribution assistance; (vi) facilitating communications with beneficial owners of Shares, including the cost of providing (or paying others to provide) services to beneficial owners of Shares, including, but not limited to, assistance in answering inquiries related to shareholder accounts; and (vii) such other services and obligations as are set forth in the Distribution Agreement.

THE ADMINISTRATOR, CUSTODIAN, AND TRANSFER AGENT

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services, located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as the Funds’ transfer agent, administrator, and index receipt agent.

Pursuant to a Fund Administration Servicing Agreement and a Fund Accounting Servicing Agreement between the Trust and Fund Services, Fund Services provides the Trust with administrative and management services (other than investment advisory services) and accounting services, including portfolio accounting services, tax accounting services and furnishing financial reports. In this capacity, Fund Services does not have any responsibility or authority for the management of the Funds, the determination of investment policy, or for any matter pertaining to the distribution of Shares. As compensation for the administration, accounting and management services, the Adviser pays Fund Services a fee based on each Fund’s average daily net assets, subject to a minimum annual fee. Fund Services also is entitled to certain out-of-pocket expenses for the services mentioned above, including pricing expenses.

The Adviser was responsible for paying the amounts in the table below to Fund Services for the fiscal year ended August 31, 2020 and the period from April 1, 2019 to August 31, 2019. ETC was responsible for paying the amounts in the table below to Fund Services for the fiscal years ended August 31, 2018 and the period from September 1, 2018 to March 31, 2019.

Name of Fund	2020	2019*	2018
Vident Core U.S. Bond Strategy ETF	\$206,545	\$265,961	\$310,496
Vident Core U.S. Equity Fund	\$172,441	\$250,387	\$308,679
Vident International Equity Fund	\$211,783	\$287,918	\$357,383

* For the period from April 1, 2019 to August 31, 2019, the Adviser paid Fund Services \$92,070, \$80,534, and \$93,554 for its services for the U.S. Bond Fund, U.S. Equity Fund, and International Equity Fund, respectively.

Pursuant to a Custody Agreement, U.S. Bank National Association (“U.S. Bank”), 1555 North Rivercenter Drive, Suite 302, Milwaukee, Wisconsin 53212, serves as the custodian of the Funds’ assets. The custodian holds and administers the assets in each Fund’s portfolio. Pursuant to the Custody Agreement, the custodian receives an annual fee from the Adviser based on the Trust’s total average daily net assets, subject to a minimum annual fee, and certain settlement charges. The custodian also is entitled to certain out-of-pocket expenses.

SECURITIES LENDING ACTIVITIES

U.S. Bank and The Bank of New York Mellon (“BNY Mellon”) (each, a “Securities Lending Agent”) serve as securities lending agent to the U.S. Equity Fund and International Equity Fund, respectively. Each Securities Lending Agent is responsible for the implementation and administration of the applicable Fund’s securities lending program pursuant to an agreement between the Trust, on behalf of the applicable Fund, and the applicable Securities Lending Agent (each, a “Securities Lending Agreement”). Each Securities Lending Agent acts as agent to the applicable Fund to lend available securities with any person on its list of approved borrowers and (i) determines whether a loan shall be made and negotiates and establishes the terms and conditions of the loan with the borrower; (ii) ensures that all substitute interest, dividends, and other distributions paid with respect to loan securities is credited to the applicable Fund’s relevant account on the date such amounts are delivered by the borrower to the Securities Lending Agent; (iii) receives and holds, on the applicable Fund’s behalf, collateral from borrowers to secure obligations of borrowers with respect to any loan of available securities; (iv) marks loaned securities and collateral to their market value each business day based upon the market value of the loaned securities and collateral at the close of business employing the most recently available pricing information and receives and delivers collateral to maintain the value of the collateral at no less than 100% of the market value of the loaned securities; (v) at the termination of a loan, returns the collateral to the borrower upon the return of the loaned securities to the applicable Securities Lending Agent; (vi) invests cash collateral in accordance with the applicable Securities Lending Agreement; and (viii) maintains such records as are reasonably necessary to account for loans that are made and the income derived therefrom and makes available to the applicable Fund a monthly statement describing the loans outstanding, including an accounting of all securities lending transactions.

The dollar amounts of gross and net income from securities lending activities received and the related fees and/or compensation paid by each applicable Fund during the most recent fiscal year are set forth in the following table.

	Vident Core U.S. Bond Strategy ETF	Vident Core U.S. Equity Fund	Vident International Equity Fund
Gross Income from securities lending activities (including income from cash collateral reinvestment)	\$6,888	\$245,287	\$223,139
<i>Fees and/or compensation for securities lending activities and related services</i>			
Fees paid to securities lending agent from a revenue split	-\$430	-\$672	-\$89,302
Fees paid for any cash collateral management service (including fees deducted from a pooled cash collateral reinvestment vehicle) that are not included in the revenue split	-\$850	-\$14,344	-\$85
Administrative fees not included in revenue split	—	—	-\$2,574
Indemnification fee not included in revenue split	—	—	—
Rebate (paid to borrower)	-\$3,875	-\$70,750	\$38,775
Other fees not included in revenue split	\$—	—	—
Aggregate fees/compensation for securities lending activities	-\$5,155	-\$85,766	-\$53,186
Net Income from securities lending activities	\$1,733	\$159,521	\$169,953

LEGAL COUNSEL

Morgan, Lewis & Bockius LLP, located at 1111 Pennsylvania Avenue NW, Washington, DC 20004-2541, serves as legal counsel for the Trust.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd., located at 342 North Water Street, Suite 830, Milwaukee, Wisconsin 53202, serves as the independent registered public accounting firm for the Funds.

PORTFOLIO HOLDINGS DISCLOSURE POLICIES AND PROCEDURES

The Board has adopted a policy regarding the disclosure of information about each Fund's security holdings. Each Fund's entire portfolio holdings are publicly disseminated each day a Fund is open for business and may be available through financial reporting and news services, including publicly available internet web sites. In addition, the composition of the Deposit Securities is publicly disseminated daily prior to the opening of the Exchange via the National Securities Clearing Corporation ("NSCC").

DESCRIPTION OF SHARES

The Declaration of Trust authorizes the issuance of an unlimited number of funds and Shares. Each Share represents an equal proportionate interest in the applicable Fund with each other Share. Shares are entitled upon liquidation to a pro rata share in the net assets of the applicable Fund. Shareholders have no preemptive rights. The Declaration of Trust provides that the Trustees may create additional series or classes of Shares. All consideration received by the Trust for shares of any additional funds and all assets in which such consideration is invested would belong to that fund and would be subject to the liabilities related thereto. Share certificates representing Shares will not be issued. Shares, when issued, are fully paid and non-assessable.

Each Share has one vote with respect to matters upon which a shareholder vote is required, consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all funds of the Trust vote together as a single class, except that if the matter being voted on affects only a particular fund it will be voted on only by that fund and if a matter affects a particular fund differently from other funds, that fund will vote separately on such matter. As a Delaware statutory trust, the Trust is not required, and does not intend, to hold annual meetings of shareholders. Approval of shareholders will be sought, however, for certain changes in the operation of the Trust and for the election of Trustees under certain circumstances. Upon the written request of shareholders owning at least 10% of the Trust's Shares, the Trust will call for a meeting of shareholders to consider the removal of one or more Trustees and other certain matters. In the event that such a meeting is requested, the Trust will provide appropriate assistance and information to the shareholders requesting the meeting.

Under the Declaration of Trust, the Trustees have the power to liquidate a Fund without shareholder approval. While the Trustees have no present intention of exercising this power, they may do so if a Fund fails to reach a viable size within a reasonable amount of time or for such other reasons as may be determined by the Board.

LIMITATION OF TRUSTEES' LIABILITY

The Declaration of Trust provides that a Trustee shall be liable only for his or her own willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of the office of Trustee, and shall not be liable for errors of judgment or mistakes of fact or law. The Trustees shall not be responsible or liable in any event for any neglect or wrong-doing of any officer, agent, employee, adviser or principal underwriter of the Trust, nor shall any Trustee be responsible for the act or omission of any other Trustee. The Declaration of Trust also provides that the Trust shall indemnify each person who is, or has been, a Trustee, officer, employee or agent of the Trust, any person who is serving or has served at the Trust's request as a Trustee, officer, trustee, employee or agent of another organization in which the Trust has any interest as a shareholder, creditor or otherwise to the extent and in the manner provided in the Amended and Restated By-laws. However, nothing in the Declaration of Trust shall protect or indemnify a Trustee against any liability for his or her willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of the office of Trustee. Nothing contained in this section attempts to disclaim a Trustee's individual liability in any manner inconsistent with the federal securities laws.

BROKERAGE TRANSACTIONS

The policy of the Trust regarding purchases and sales of securities for a Fund is that primary consideration will be given to obtaining the most favorable prices and efficient executions of transactions. Consistent with this policy, when securities transactions are effected on a stock exchange, the Trust's policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. The Trust believes that a requirement always to seek the lowest possible commission cost could impede effective portfolio management and preclude the Funds and the Sub-Adviser from obtaining a high quality of brokerage and research services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Sub-Adviser will rely upon its experience and knowledge regarding commissions generally charged by various brokers and on its judgment in evaluating the brokerage services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise, as in most cases, an exact dollar value for those services is not ascertainable. The Trust has adopted policies and procedures that prohibit the consideration of sales of Shares as a factor in the selection of a broker or dealer to execute its portfolio transactions.

The Sub-Adviser owes a fiduciary duty to its clients to seek to provide best execution on trades effected. In selecting a broker/dealer for each specific transaction, the Sub-Adviser chooses the broker/dealer deemed most capable of providing the services necessary to obtain the most favorable execution. "Best execution" is generally understood to mean the most favorable cost or net proceeds reasonably obtainable under the circumstances. The full range of brokerage services applicable to a particular transaction may be considered when making this judgment, which may include, but is not limited to: liquidity, price, commission, timing, aggregated trades, capable floor brokers or traders, competent block trading coverage, ability to position, capital strength and stability, reliable and accurate communications and settlement processing, use of automation, knowledge of other buyers or sellers, arbitrage skills,

administrative ability, underwriting and provision of information on a particular security or market in which the transaction is to occur. The specific criteria will vary depending upon the nature of the transaction, the market in which it is executed, and the extent to which it is possible to select from among multiple broker/dealers. The Sub-Adviser will also use electronic crossing networks (“ECNs”) when appropriate.

Subject to the foregoing policies, brokers or dealers selected to execute a Fund’s portfolio transactions may include such Fund’s Authorized Participants (as discussed in “Procedures for Purchase of Creation Units” below) or their affiliates. An Authorized Participant or its affiliates may be selected to execute a Fund’s portfolio transactions in conjunction with an all-cash creation unit order or an order including “cash-in-lieu” (as described below under “Purchase and Redemption of Shares in Creation Units”), so long as such selection is in keeping with the foregoing policies. As described below under “Purchase and Redemption of Shares in Creation Units—Creation Transaction Fee” and “—Redemption Transaction Fee”, each Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders, e.g., for creation orders that facilitate the rebalance of the applicable Fund’s portfolio in a more tax efficient manner than could be achieved without such order, even if the decision to not charge a variable fee could be viewed as benefiting the Authorized Participant or its affiliate selected to execute the Fund’s portfolio transactions in connection with such orders.

The Sub-Adviser may use a Fund’s assets for, or participate in, third-party soft dollar arrangements, in addition to receiving proprietary research from various full-service brokers, the cost of which is bundled with the cost of the broker’s execution services. The Sub-Adviser does not “pay up” for the value of any such proprietary research. Section 28(e) of the 1934 Act permits the Sub-Adviser, under certain circumstances, to cause a Fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. The Sub-Adviser may receive a variety of research services and information on many topics, which it can use in connection with its management responsibilities with respect to the various accounts over which it exercises investment discretion or otherwise provides investment advice. The research services may include qualifying order management systems, portfolio attribution and monitoring services and computer software and access charges which are directly related to investment research. Accordingly, a Fund may pay a broker commission higher than the lowest available in recognition of the broker’s provision of such services to the Sub-Adviser, but only if the Sub-Adviser determines the total commission (including the soft dollar benefit) is comparable to the best commission rate that could be expected to be received from other brokers. The amount of soft dollar benefits received depends on the amount of brokerage transactions effected with the brokers. A conflict of interest exists because there is an incentive to: 1) cause clients to pay a higher commission than the firm might otherwise be able to negotiate; 2) cause clients to engage in more securities transactions than would otherwise be optimal; and 3) only recommend brokers that provide soft dollar benefits.

The Sub-Adviser faces a potential conflict of interest when it uses client trades to obtain brokerage or research services. This conflict exists because the Sub-Adviser is able to use the brokerage or research services to manage client accounts without paying cash for such services, which reduces the Sub-Adviser’s expenses to the extent that the Sub-Adviser would have purchased such products had they not been provided by brokers. Section 28(e) permits the Sub-Adviser to use brokerage or research services for the benefit of any account it manages. Certain accounts managed by the Sub-Adviser may generate soft dollars used to purchase brokerage or research services that ultimately benefit other accounts managed by the Sub-Adviser, effectively cross subsidizing the other accounts managed by the Sub-Adviser that benefit directly from the product. The Sub-Adviser may not necessarily use all of the brokerage or research services in connection with managing a Fund whose trades generated the soft dollars used to purchase such products.

A Fund may deal with affiliates in principal transactions to the extent permitted by exemptive order or applicable rule or regulation.

The table below shows brokerage commissions paid by the Funds for the fiscal years ended August 31, as applicable to each Fund:

Name of Fund	2020	2019	2018
Vident Core U.S. Bond Strategy ETF	\$0	\$0	\$0
Vident Core U.S. Equity Fund	\$304,202	\$310,358	\$417,909
Vident International Equity Fund	\$637,735	\$553,751	\$1,088,753

Directed Brokerage. During the fiscal year ended August 31, 2020, the Funds did not direct brokerage transactions to a broker because of research services provided.

Brokerage with Fund Affiliates. A Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Funds, the Adviser, the Sub-Adviser or the Distributor for a commission in conformity with the 1940 Act, the 1934 Act and rules promulgated by the SEC. These rules require that commissions paid to the affiliate by the Funds for exchange transactions not exceed “usual and customary” brokerage commissions. The rules define “usual and customary” commissions to include amounts which are “reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time.” The Trustees, including those who are not “interested persons” of the Funds, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically. During the

fiscal year ended August 31, 2020, the Funds did not pay brokerage commissions to any registered broker-dealer affiliates of the Funds, the Adviser, the Sub-Adviser, or the Distributor.

Securities of “Regular Broker-Dealers.” Each Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the 1940 Act) that it may hold at the close of its most recent fiscal year. “Regular brokers or dealers” of a Fund are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Fund’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Fund; or (iii) sold the largest dollar amounts of Shares. During the fiscal year ended August 31, 2020, the Funds did not hold any securities of “regular broker dealers.”

Portfolio Turnover Rate. Portfolio turnover may vary from year to year, as well as within a year. High turnover rates are likely to result in comparatively greater brokerage expenses. The overall reasonableness of brokerage commissions is evaluated by the Sub-Adviser based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services.

For the fiscal years ended August 31, the Funds’ portfolio turnover rates were:

Name of Fund	2020	2019
Vident Core U.S. Bond Strategy ETF	247%	384%
Vident Core U.S. Equity Fund	66%	71%
Vident International Equity Fund	79%	76%

BOOK ENTRY ONLY SYSTEM

The Depository Trust Company (“DTC”) acts as securities depository for Shares. Shares are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC. Except in limited circumstances set forth below, certificates will not be issued for Shares.

DTC is a limited-purpose trust company that was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange (“NYSE”) and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers, and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “Indirect Participants”).

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants, and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to in this SAI as “Beneficial Owners”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares. The Trust recognizes DTC or its nominee as the record owner of all Shares for all purposes. Beneficial Owners of Shares are not entitled to have Shares registered in their names, and will not receive or be entitled to physical delivery of Share certificates. Each Beneficial Owner must rely on the procedures of DTC and any DTC Participant and/or Indirect Participant through which such Beneficial Owner holds its interests, to exercise any rights of a holder of Shares.

Conveyance of all notices, statements, and other communications to Beneficial Owners is effected as follows. DTC will make available to the Trust upon request and for a fee a listing of Shares held by each DTC Participant. The Trust shall obtain from each such DTC Participant the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement, or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall credit immediately DTC Participants’ accounts with payments in amounts proportionate to their respective beneficial interests in a Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a “street name,” and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in Shares, or for maintaining, supervising, or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may determine to discontinue providing its service with respect to a Fund at any time by giving reasonable notice to the Fund and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the applicable Fund shall take action either to find a replacement for DTC to perform its functions at a comparable cost or, if such replacement is unavailable, to issue and deliver printed certificates representing ownership of Shares, unless the Trust makes other arrangements with respect thereto satisfactory to the Exchange.

PURCHASE AND REDEMPTION OF SHARES IN CREATION UNITS

The Trust issues and sells Shares only in Creation Units on a continuous basis through the Distributor, without a sales load (but subject to transaction fees, if applicable), at their NAV per share next determined after receipt of an order, on any Business Day, in proper form pursuant to the terms of the Authorized Participant Agreement (“Participant Agreement”). The NAV of Shares is calculated each business day as of the scheduled close of regular trading on the NYSE, generally 4:00 p.m., Eastern time. The Funds will not issue fractional Creation Units. A “Business Day” is any day on which the NYSE is open for business.

Fund Deposit. The consideration for purchase of a Creation Unit of the Equity Funds generally consists of the in-kind deposit of a designated portfolio of securities (the “Deposit Securities”) per each Creation Unit, constituting a substantial replication, or a portfolio sampling representation, of the securities included in the applicable Fund’s Index and the Cash Component (defined below), computed as described below. Notwithstanding the foregoing, the Trust reserves the right to permit or require the substitution of a “cash in lieu” amount (“Deposit Cash”) to be added to the Cash Component to replace any Deposit Security. When accepting purchases of Creation Units for all or a portion of Deposit Cash, a Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser. The consideration for purchase of a Creation Unit of the U.S. Bond Fund generally consists of the deposit of cash (“Deposit Cash” with respect to the U.S. Bond Fund).

Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the applicable Fund. The “Cash Component” is an amount equal to the difference between the NAV of Shares (per Creation Unit) and the value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (*i.e.*, the NAV per Creation Unit exceeds the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such positive amount. If the Cash Component is a negative number (*i.e.*, the NAV per Creation Unit is less than the value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the value of the Deposit Securities or Deposit Cash, as applicable. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, if applicable, which shall be the sole responsibility of the Authorized Participant (as defined below).

Each Fund, through NSCC, makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of Shares of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the applicable Fund. Such Fund Deposit is subject to any applicable adjustments as described below, to effect purchases of Creation Units of the applicable Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

The identity and number of Shares of the Deposit Securities or the amount of Deposit Cash, as applicable, required for a Fund Deposit for a Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Adviser with a view to the investment objective of the Fund. The composition of the Deposit Securities may also change in response to adjustments to the weighting or composition of the component securities of a Fund’s Index.

The Trust reserves the right to permit or require the substitution of Deposit Cash to replace any Deposit Security, which shall be added to the Cash Component, including, without limitation, in situations where the Deposit Security: (i) may not be available in sufficient quantity for delivery; (ii) may not be eligible for transfer through the systems of DTC for corporate securities and municipal securities; (iii) may not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting; (iv) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws; or (v) in certain other situations (collectively, “custom orders”). The Trust also reserves the right to include or remove Deposit Securities from the basket in anticipation of Index rebalancing changes. The adjustments described above will reflect changes, known to the Adviser on the date of announcement to be in effect by the time of delivery of the Fund Deposit, in the composition of the subject Index being tracked by a Fund or resulting from certain corporate actions.

Procedures for Purchase of Creation Units. To be eligible to place orders with the Distributor to purchase a Creation Unit of a Fund, an entity must be (i) a “Participating Party” (*i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the “Clearing Process”), a clearing agency that is registered with the SEC; or (ii) a DTC Participant (see “Book Entry Only System”). In addition, each Participating Party or DTC Participant (each, an “Authorized Participant”) must execute a Participant Agreement that has been agreed to by the Distributor, and that has been accepted by the Transfer Agent, with respect to purchases and redemptions of Creation Units. Each Authorized Participant will agree, pursuant to the terms of a Participant Agreement, on behalf of itself or any investor on whose behalf it will act, to certain conditions, including that it will pay to the Trust, an amount of cash sufficient to pay the Cash Component together with the creation transaction fee (described below), if applicable, and any other applicable fees and taxes.

All orders to purchase Shares directly from the International Equity Fund on the next Business Day must be submitted as a “Future Dated Trade” for one or more Creation Units between 4:30 p.m. Eastern time and 5:30 p.m. Eastern time on the prior Business Day and in the manner set forth in the Participant Agreement and/or applicable order form. With respect to the International Equity Fund, the Business Day following the day on which such an order is submitted to purchase Creation Units (or an order to redeem Creation Units, as set forth below) is referred to as the “Order Placement Date.”

All orders to purchase Shares directly from the U.S. Equity Fund or U.S. Bond Fund must be placed for one or more Creation Units and in the manner and by the time set forth in the Participant Agreement and/or applicable order form. With respect to the U.S. Equity Fund and U.S. Bond Fund, the order cut-off time for orders to purchase Creation Units is 4:00 p.m. Eastern time and 12:00 p.m. Eastern time, respectively, which time may be modified by each Fund from time-to-time by amendment to the Participant Agreement and/or applicable order form. In the case of custom orders, the order must be received by the Distributor no later than 3:00 p.m. Eastern time and 12:00 p.m. Eastern time for the U.S. Equity Fund and U.S. Bond Fund, respectively, or such earlier time as may be designated by the applicable Fund and disclosed to Authorized Participants. The date on which an order to purchase Creation Units (or an order to redeem Creation Units, as set forth below) is received and accepted is referred to as the “Order Placement Date.”

An Authorized Participant may require an investor to make certain representations or enter into agreements with respect to the order (*e.g.*, to provide for payments of cash, when required). Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to purchase Shares directly from a Fund in Creation Units have to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

On days when the Exchange closes earlier than normal, a Fund may require orders to create Creation Units to be placed earlier in the day. In addition, if a market or markets on which a Fund’s investments are primarily traded is closed, the applicable Fund will also generally not accept orders on such day(s). Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement and in accordance with the applicable order form. On behalf of the Funds, the Distributor will notify the Custodian of such order. The Custodian will then provide such information to the appropriate local sub-custodian(s). Those placing orders through an Authorized Participant should allow sufficient time to permit proper submission of the purchase order to the Distributor by the cut-off time on such Business Day. Economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Distributor or an Authorized Participant.

Fund Deposits must be delivered by an Authorized Participant through the Federal Reserve System (for cash) or through DTC (for corporate securities), through a subcustody agent (for foreign securities) and/or through such other arrangements allowed by the Trust or its agents. With respect to foreign Deposit Securities, the Custodian shall cause the subcustodian of the Funds to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, such Deposit Securities (or Deposit Cash for all or a part of such securities, as permitted or required), with any appropriate adjustments as advised by the Trust. Foreign Deposit Securities must be delivered to an account maintained at the applicable local subcustodian. A Fund Deposit transfer must be ordered by the Authorized Participant in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities or Deposit Cash, as applicable, to the account of the applicable Fund or its agents by no later than 12:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If a Fund or its agents do not receive all of the Deposit Securities, or the required Deposit Cash in lieu thereof, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the applicable Fund for losses, if any, resulting therefrom. The “Settlement Date” for a Fund is generally the second Business Day after the Order Placement Date. All questions as to the number of Deposit Securities or Deposit Cash to be delivered, as applicable, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities or cash, as applicable, will be determined by the Trust, whose determination shall be final and binding. The amount of cash represented by the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than the Settlement Date. If the Cash Component and the Deposit Securities or Deposit Cash, as applicable, are not received by the Custodian in a timely manner by the Settlement Date, the creation order may be cancelled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current NAV of the applicable Fund.

The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to the applicable cut-off time and the federal funds in the appropriate amount are deposited with the Custodian on the Settlement Date. If the order is not placed in proper form as required, or federal funds in the appropriate amount are not received on the Settlement Date, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the applicable Fund for losses, if any, resulting therefrom. A creation request is considered to be in “proper form” if all procedures set forth in the Participant Agreement, order form and this SAI are properly followed.

Issuance of a Creation Unit. Except as provided in this SAI, Creation Units will not be issued until the transfer of good title to the Trust of the Deposit Securities or payment of Deposit Cash, as applicable, and the payment of the Cash Component have been completed. When the subcustodian has confirmed to the Custodian that the required Deposit Securities (or the cash value thereof) have been delivered to the account of the relevant subcustodian or subcustodians, the Distributor and the Adviser shall be notified of such delivery, and the Trust will issue and cause the delivery of the Creation Units. The delivery of Creation Units so created generally will occur no later than the second Business Day following the day on which the purchase order is deemed received by the Distributor. However, the International Equity Fund reserves the right to settle Creation Unit transactions on a basis other than the second Business Day following the day on which the purchase order is deemed received by the Distributor to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances. The Authorized Participant shall be liable to the applicable Fund for losses, if any, resulting from unsettled orders.

Creation Units may be purchased in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) an additional amount of cash equal to a percentage of the value as set forth in the Participant Agreement, of the undelivered Deposit Securities (the “Additional Cash Deposit”), which shall be maintained in a separate non-interest bearing collateral account. The Authorized Participant must deposit with the Custodian the Additional Cash Deposit, as applicable, by 12:00 p.m. Eastern time (or such other time as specified by the Trust) on the Settlement Date. If a Fund or its agents do not receive the Additional Cash Deposit in the appropriate amount, by such time, then the order may be deemed rejected and the Authorized Participant shall be liable to the applicable Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to the applicable percentage, as set forth in the Participant Agreement, of the daily market value of the missing Deposit Securities. The Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as described below under “Creation Transaction Fee,” may be charged. The delivery of Creation Units so created generally will occur no later than the Settlement Date.

Acceptance of Orders of Creation Units. The Trust reserves the absolute right to reject an order for Creation Units transmitted to it by the Distributor with respect to a Fund including, without limitation, if (a) the order is not in proper form; (b) the Deposit Securities or Deposit Cash, as applicable, delivered by the Participant are not as disseminated through the facilities of the NSCC for that date by the Custodian; (c) the investor(s), upon obtaining Shares ordered, would own 80% or more of the currently outstanding Shares of the applicable Fund; (d) acceptance of the Deposit Securities would have certain adverse tax consequences to the applicable Fund; (e) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (f) the acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or the Adviser, have an adverse effect on the Trust or the rights of beneficial owners; (g) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Trust, be unlawful; or (h) in the event that circumstances outside the control of the Trust, the Custodian, the Transfer Agent and/or the Adviser make it for all practical purposes not feasible to process orders for Creation Units.

Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, teletype and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Distributor, the Custodian, a sub-custodian, the Transfer Agent, DTC, NSCC, Federal Reserve System, or any other participant in the creation process, and other extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall either of them incur any liability for the failure to give any such notification. The Trust, the Transfer Agent, the Custodian and the Distributor shall not be liable for the rejection of any purchase order for Creation Units.

All questions as to the number of Shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust’s determination shall be final and binding.

Creation Transaction Fee. A fixed purchase (*i.e.*, creation) transaction fee, payable to the Funds’ custodian, may be imposed for the transfer and other transaction costs associated with the purchase of Creation Units (“Creation Order Costs”). The standard fixed creation transaction fee for each Fund, regardless of the number of Creation Units created in the transaction, can be found in the table below. Each Fund may adjust the standard fixed creation transaction fee from time to time. The fixed creation fee may be waived on certain orders if the applicable Fund’s custodian has determined to waive some or all of the Creation Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to the maximum percentage listed in the table below of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (*e.g.*, brokerage, taxes) involved with buying the securities with cash. Each Fund may determine to not charge a variable fee on certain orders when the Adviser or Sub-Adviser has determined that doing so is in the best interests of Fund shareholders (*e.g.*, for creation orders that facilitate the rebalance of the applicable Fund’s portfolio in a more tax efficient manner than could be achieved without such order).

Name of Fund	Fixed Creation Transaction Fee	Maximum Variable Transaction Fee
Vident Core U.S. Bond Strategy ETF	\$750	3%
Vident Core U.S. Equity Fund	\$750	2%
Vident International Equity Fund	\$5,000	2%

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Trust to their account or on their order.

Risks of Purchasing Creation Units. There are certain legal risks unique to investors purchasing Creation Units directly from a Fund. Because Shares may be issued on an ongoing basis, a “distribution” of Shares could be occurring at any time. Certain activities that a shareholder performs as a dealer could, depending on the circumstances, result in the shareholder being deemed a participant in the distribution in a manner that could render the shareholder a statutory underwriter and subject to the prospectus delivery and liability provisions of the Securities Act. For example, a shareholder could be deemed a statutory underwriter if it purchases Creation Units from a Fund, breaks them down into the constituent Shares, and sells those Shares directly to customers, or if a shareholder chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary-market demand for Shares. Whether a person is an underwriter depends upon all of the facts and circumstances pertaining to that person’s activities, and the examples mentioned here should not be considered a complete description of all the activities that could cause you to be deemed an underwriter.

Dealers who are not “underwriters” but are participating in a distribution (as opposed to engaging in ordinary secondary-market transactions), and thus dealing with Shares as part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act, will be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act.

Redemption. Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by a Fund through the Transfer Agent and only on a Business Day. EXCEPT UPON LIQUIDATION OF A FUND, THE TRUST WILL NOT REDEEM SHARES IN AMOUNTS LESS THAN CREATION UNITS. Investors must accumulate enough Shares in the secondary market to constitute a Creation Unit to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Funds, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the list of the names and Share quantities of each Fund’s portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day (“Fund Securities”). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit are paid either in-kind or in cash, or combination thereof, as determined by the Trust. With respect to in-kind redemptions of a Fund, redemption proceeds for a Creation Unit will consist of Fund Securities—as announced by the Custodian on the Business Day of the request for redemption received in proper form plus cash in an amount equal to the difference between the NAV of Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the “Cash Redemption Amount”), less a fixed redemption transaction fee, as applicable, as set forth below. In the event that the Fund Securities have a value greater than the NAV of Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust’s discretion, an Authorized Participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.

Redemption Transaction Fee. A fixed redemption transaction fee, payable to the Fund’s custodian, may be imposed for the transfer and other transaction costs associated with the redemption of Creation Units (“Redemption Order Costs”). The standard fixed redemption transaction fee for the Fund, regardless of the number of Creation Units redeemed in the transaction, can be found in the

table below. Each Fund may adjust the redemption transaction fee from time to time. The fixed redemption fee may be waived on certain orders if the applicable Fund’s custodian has determined to waive some or all of the Redemption Order Costs associated with the order or another party, such as the Adviser, has agreed to pay such fee.

In addition, a variable fee, payable to the Fund, of up to the maximum percentage listed in the table below of the value of the Creation Units subject to the transaction may be imposed for cash redemptions, non-standard orders, or partial cash redemptions (when cash redemptions are available) of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with selling portfolio securities to satisfy a cash redemption. Each Fund may determine to not charge a variable fee on certain orders when the Adviser or Sub-Adviser has determined that doing so is in the best interests of Fund shareholders (e.g., for redemption orders that facilitate the rebalance of the Fund’s portfolio in a more tax efficient manner than could be achieved without such order).

Name of Fund	Fixed Redemption Transaction Fee	Maximum Variable Transaction Fee
Vident Core U.S. Bond Strategy ETF	\$750	3%
Vident Core U.S. Equity Fund	\$750	2%
Vident International Equity Fund	\$5,000	2%

Investors who use the services of a broker or other such intermediary may be charged a fee for such services. Investors are responsible for the fixed costs of transferring the Fund Securities from the Trust to their account or on their order.

Procedures for Redemption of Creation Units.

Orders to redeem Creation Units of the International Equity Fund on the next Business Day must be submitted in proper form to the Transfer Agent as a “Future Dated Trade” for one or more Creation Units between 4:30 p.m. Eastern time and 5:30 p.m. Eastern time on the prior Business Day and in the manner set forth in the Participant Agreement and/or applicable order form. Orders to redeem Creation Units of the U.S. Equity Fund or U.S. Bond Fund must be submitted in proper form to the Transfer Agent prior to 4:00 p.m. Eastern time and 12:00 p.m. Eastern Time, respectively. A redemption request is considered to be in “proper form” if (i) an Authorized Participant has transferred or caused to be transferred to the Trust’s Transfer Agent the Creation Unit(s) being redeemed through the book-entry system of DTC so as to be effective by the time as set forth in the Participant Agreement and (ii) a request in form satisfactory to the Trust is received by the Transfer Agent from the Authorized Participant on behalf of itself or another redeeming investor within the time periods specified in the Participant Agreement. If the Transfer Agent does not receive the investor’s Shares through DTC’s facilities by the times and pursuant to the other terms and conditions set forth in the Participant Agreement, the redemption request shall be rejected.

The Authorized Participant must transmit the request for redemption, in the form required by the Trust, to the Transfer Agent in accordance with procedures set forth in the Authorized Participant Agreement. Investors should be aware that their particular broker may not have executed an Authorized Participant Agreement, and that, therefore, requests to redeem Creation Units may have to be placed by the investor’s broker through an Authorized Participant who has executed an Authorized Participant Agreement. Investors making a redemption request should be aware that such request must be in the form specified by such Authorized Participant. Investors making a request to redeem Creation Units should allow sufficient time to permit proper submission of the request by an Authorized Participant and transfer of the Shares to the Trust’s Transfer Agent; such investors should allow for the additional time that may be required to effect redemptions through their banks, brokers or other financial intermediaries if such intermediaries are not Authorized Participants.

Additional Redemption Procedures. In connection with taking delivery of Shares of Fund Securities upon redemption of Creation Units, a redeeming shareholder or Authorized Participant acting on behalf of such shareholder must maintain appropriate custody arrangements with a qualified broker-dealer, bank, or other custody providers in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered. Deliveries of redemption proceeds generally will be made within two business days of the trade date. However, due to the schedule of holidays in certain countries, the different treatment among foreign and U.S. markets of dividend record dates and dividend ex-dates (that is the last date the holder of a security can sell the security and still receive dividends payable on the security sold), and in certain other circumstances, the delivery of in-kind redemption proceeds with respect to the International Equity Fund may take longer than two Business Days after the day on which the redemption request is received in proper form. If neither the redeeming Shareholder nor the Authorized Participant acting on behalf of such redeeming Shareholder has appropriate arrangements to take delivery of the Fund Securities in the applicable foreign jurisdiction and it is not possible to make other such arrangements, or if it is not possible to effect deliveries of the Fund Securities in such jurisdiction, the Trust may, in its discretion, exercise its option to redeem such Shares in cash, and the redeeming Shareholders will be required to receive its redemption proceeds in cash.

In addition, an investor may request a redemption in cash that a Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares of the applicable Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee, if applicable, and additional charge for requested cash redemptions specified above, to offset the Trust’s brokerage and other transaction costs associated with the disposition

of Fund Securities). A Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Funds (whether or not it otherwise permits cash redemptions) reserve the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of Creation Units may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming investor of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment. Further, an Authorized Participant that is not a “qualified institutional buyer,” (“QIB”) as such term is defined under Rule 144A of the Securities Act, will not be able to receive Fund Securities that are restricted securities eligible for resale under Rule 144A. An Authorized Participant may be required by the Trust to provide a written confirmation with respect to QIB status to receive Fund Securities.

Because the portfolio securities of the Funds may trade on other exchanges on days that the Exchange is closed or are otherwise not Business Days for such Fund, shareholders may not be able to redeem their Shares of the applicable Fund, or to purchase or sell Shares of the applicable Fund on the Exchange, on days when the NAV of the applicable Fund could be significantly affecting by events in the relevant foreign markets.

The right of redemption may be suspended or the date of payment postponed with respect to a Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the applicable Fund or determination of the NAV of the Shares is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

DETERMINATION OF NAV

NAV per Share for a Fund is computed by dividing the value of the net assets of the applicable Fund (*i.e.*, the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fees, are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is calculated by Fund Services and determined at the scheduled close of the regular trading session on the NYSE (ordinarily 4:00 p.m., Eastern time) on each day that the NYSE is open, provided that fixed-income assets may be valued as of the announced closing time for trading in fixed-income instruments on any day that the Securities Industry and Financial Markets Association (“SIFMA”) announces an early closing time.

In calculating each Fund’s NAV per Share, the Funds’ investments are generally valued using market valuations. A market valuation generally means a valuation (i) obtained from an exchange, a pricing service, or a major market maker (or dealer), (ii) based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service, or a major market maker (or dealer) or (iii) based on amortized cost. In the case of shares of other funds that are not traded on an exchange, a market valuation means such fund’s published NAV per share. The Funds may use various pricing services, or discontinue the use of any pricing service, as approved by the Board from time to time. A price obtained from a pricing service based on such pricing service’s valuation matrix may be considered a market valuation. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Dividends, Distributions and Taxes.”

General Policies. Dividends from net investment income, if any, are declared and paid at least annually by each Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but a Fund may make distributions on a more frequent basis to improve index tracking or to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust.

Each Fund makes additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the applicable Fund, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve a Fund’s eligibility for treatment as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Dividend Reinvestment Service. The Trust will not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds, but certain individual broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Funds through DTC Participants for reinvestment of their

dividend distributions. Investors should contact their brokers to ascertain the availability and description of these services. Beneficial Owners should be aware that each broker may require investors to adhere to specific procedures and timetables to participate in the dividend reinvestment service and investors should ascertain from their brokers such necessary details. If this service is available and used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares issued by the Trust of the applicable Fund at NAV per Share. Distributions reinvested in additional Shares will nevertheless be taxable to Beneficial Owners acquiring such additional Shares to the same extent as if such distributions had been received in cash.

FEDERAL INCOME TAXES

The following is only a summary of certain U.S. federal income tax considerations generally affecting a Fund and its shareholders that supplements the discussion in the Prospectus. No attempt is made to present a comprehensive explanation of the federal, state, local or foreign tax treatment of a Fund or its shareholders, and the discussion here and in the Prospectus is not intended to be a substitute for careful tax planning.

The following general discussion of certain U.S. federal income tax consequences is based on provisions of the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Shareholders are urged to consult their own tax advisers regarding the application of the provisions of tax law described in this SAI in light of the particular tax situations of the shareholders and regarding specific questions as to federal, state, foreign or local taxes.

Taxation of the Funds. Each Fund has elected and intends to continue to qualify each year to be treated as a separate RIC under the Code. As such, the Funds should not be subject to federal income taxes on their net investment income and capital gains, if any, to the extent that they timely distribute such income and capital gains to their shareholders. To qualify for treatment as a RIC, a Fund must distribute annually to its shareholders at least the sum of 90% of its net investment income (generally including the excess of net short-term capital gains over net long-term capital losses) and 90% of its net tax-exempt interest income, if any (the “Distribution Requirement”) and also must meet several additional requirements. Among these requirements are the following: (i) at least 90% of the applicable Fund’s gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income derived with respect to its business of investing in such stock, securities or foreign currencies and net income derived from interests in qualified publicly traded partnerships (the “Qualifying Income Requirement”); and (ii) at the end of each quarter of the Fund’s taxable year, the Fund’s assets must be diversified so that (a) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, securities of other RICs, and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater in value than 5% of the value of the Fund’s total assets and to not more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (b) not more than 25% of the value of its total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest, in the securities (other than U.S. government securities or securities of other RICs) of any one issuer, the securities (other than securities of other RICs) of two or more issuers which the applicable Fund controls and which are engaged in the same, similar, or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the “Diversification Requirement”).

It may not be possible for each Fund to fully implement a representative sampling strategy while satisfying the Diversification Requirement. Each Fund’s effort to satisfy the Diversification Requirement may affect the applicable Fund’s execution of its investment strategy and may cause the applicable Fund’s return to deviate from that of the Index, and the applicable Fund’s efforts to represent the Index using a sampling strategy, if such a strategy is used at any point, may cause it inadvertently to fail to satisfy the Diversification Requirement.

To the extent a Fund makes investments that may generate income that is not qualifying income, including certain derivatives, the Fund will seek to restrict the resulting income from such investments so that the Fund’s non-qualifying income does not exceed 10% of its gross income.

Although the Funds intend to distribute substantially all of their net investment income and may distribute their capital gains for any taxable year, the Funds will be subject to federal income taxation to the extent any such income or gains are not distributed. Each Fund is treated as a separate corporation for federal income tax purposes. A Fund therefore is considered to be a separate entity in determining its treatment under the rules for RICs described herein. The requirements (other than certain organizational requirements) for qualifying RIC status are determined at the fund level rather than at the Trust level.

If a Fund fails to satisfy the Qualifying Income Requirement or the Diversification Requirement in any taxable year, the applicable Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain *de minimis* failures of the Diversification Requirement where a Fund corrects the failure within a specified period of time. To be eligible for the relief provisions with respect to a failure to meet the Diversification Requirement, a Fund may be required to dispose of certain assets. If these relief provisions were not available to a Fund and it were to fail to qualify for treatment as a RIC for a taxable year, all of its taxable income would be subject to tax at the regular 21% corporate rate without any deduction for distributions to shareholders, and its distributions

(including capital gains distributions) generally would be taxable to the shareholders of the applicable Fund as ordinary income dividends, subject to the dividends received deduction for corporate shareholders and the lower tax rates on qualified dividend income received by non-corporate shareholders, subject to certain limitations. To requalify for treatment as a RIC in a subsequent taxable year, a Fund would be required to satisfy the RIC qualification requirements for that year and to distribute any earnings and profits from any year in which the applicable Fund failed to qualify for tax treatment as a RIC. If a Fund failed to qualify as a RIC for a period greater than two taxable years, it would generally be required to pay a Fund-level tax on certain net built in gains recognized with respect to certain of its assets upon a disposition of such assets within five years of qualifying as a RIC in a subsequent year. The Board reserves the right not to maintain the qualification of a Fund for treatment as a RIC if it determines such course of action to be beneficial to shareholders. If a Fund determines that it will not qualify as a RIC, the applicable Fund will establish procedures to reflect the anticipated tax liability in the Fund's NAV.

A Fund may elect to treat part or all of any "qualified late year loss" as if it had been incurred in the succeeding taxable year in determining the Fund's taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such "qualified late year loss" as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A "qualified late year loss" generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as "post-October losses") and certain other late-year losses.

Capital losses in excess of capital gains ("net capital losses") are not permitted to be deducted against a RIC's net investment income. Instead, for U.S. federal income tax purposes, potentially subject to certain limitations, a Fund may carry a net capital loss from any taxable year forward indefinitely to offset its capital gains, if any, in years following the year of the loss. To the extent subsequent capital gains are offset by such losses, they will not result in U.S. federal income tax liability to the applicable Fund and may not be distributed as capital gains to its shareholders. Generally, a Fund may not carry forward any losses other than net capital losses. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

A Fund will be subject to a nondeductible 4% federal excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year an amount at least equal to 98% of its ordinary income for the calendar year plus 98.2% of its capital gain net income for the one-year period ending on October 31 of that year, subject to an increase for any shortfall in the prior year's distribution. The Funds intend to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of the excise tax, but can make no assurances that all such tax liability will be eliminated.

If a Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax to the extent any such income or gains are not distributed. A Fund may designate certain amounts retained as undistributed net capital gain in a notice to its shareholders, who (i) will be required to include in income for U.S. federal income tax purposes, as long-term capital gain, their proportionate shares of the undistributed amount so designated, (ii) will be entitled to credit their proportionate shares of the income tax paid by the Fund on that undistributed amount against their federal income tax liabilities and to claim refunds to the extent such credits exceed their tax liabilities, and (iii) will be entitled to increase their tax basis, for federal income tax purposes, in their Shares by an amount equal to the excess of the amount of undistributed net capital gain included in their respective income over their respective income tax credits.

Taxation of Shareholders – Distributions. Each Fund intends to distribute annually to its shareholders substantially all of its investment company taxable income (computed without regard to the deduction for dividends paid), its net tax-exempt income, if any, and any net capital gain (net recognized long-term capital gains in excess of net recognized short-term capital losses, taking into account any capital loss carryforwards). The distribution of investment company taxable income (as so computed) and net realized capital gain will be taxable to Fund shareholders regardless of whether the shareholder receives these distributions in cash or reinvests them in additional Shares.

For the fiscal year ended August 31, 2020, the Funds' had accumulated short-term and long-term capital loss carryforwards in the amounts provided in the table below. These amounts do not expire.

Name of Fund	Short-Term Capital Loss Carryforward	Long-Term Capital Loss Carryforward
Vident Core U.S. Bond Strategy ETF	\$2,922,642	\$5,213,400
Vident Core U.S. Equity Fund	\$89,206,214	\$—
Vident International Equity Fund	\$146,810,502	\$26,362,969

The Funds (or your broker) will report to shareholders annually the amounts of dividends paid from ordinary income, the amount of distributions of net capital gain, the portion of dividends which may qualify for the dividends-received deduction for corporations, and the portion of dividends which may qualify for treatment as qualified dividend income, which is taxable to non-corporate shareholders at rates of up to 20%. It is not expected that dividends paid by the U.S. Bond Fund or the International Equity Fund will qualify for the dividends-received deduction for corporations. It is also not expected that the dividends paid by the U.S. Bond Fund will qualify for any favorable U.S. federal income tax rate available to noncorporate shareholders on "qualified dividend income."

Distributions from a Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares.

Qualified dividend income includes, in general, subject to certain holding period and other requirements, dividend income from taxable domestic corporations and certain foreign corporations. Subject to certain limitations, eligible foreign corporations include those incorporated in possessions of the United States, those incorporated in certain countries with comprehensive tax treaties with the United States, and other foreign corporations if the stock with respect to which the dividends are paid is readily tradable on an established securities market in the United States. Dividends received by a Fund from an ETF, an underlying fund taxable as a RIC, or from a REIT may be treated as qualified dividend income generally only to the extent so reported by such ETF, underlying fund, or REIT, however, dividends received by a Fund from a REIT are generally not treated as qualified dividend income. If 95% or more of a Fund's gross income (calculated without taking into account net capital gain derived from sales or other dispositions of stock or securities) consists of qualified dividend income, the Fund may report all distributions of such income as qualified dividend income.

Fund dividends will not be treated as qualified dividend income if a Fund does not meet holding period and other requirements with respect to dividend paying stocks in its portfolio, and the shareholder does not meet holding period and other requirements with respect to the Shares on which the dividends were paid. Distributions by a Fund of its net short-term capital gains will be taxable as ordinary income. Distributions from a Fund's net capital gain will be taxable to shareholders at long-term capital gains rates, regardless of how long shareholders have held their Shares. Distributions may be subject to state and local taxes.

In the case of corporate shareholders, certain dividends received by a Fund from U.S. corporations (generally, dividends received by the Fund in respect of any share of stock (1) with a tax holding period of at least 46 days during the 91-day period beginning on the date that is 45 days before the date on which the stock becomes ex-dividend as to that dividend and (2) that is held in an unleveraged position) and distributed and appropriately so reported by the Fund may be eligible for the 50% dividends-received deduction. Certain preferred stock must have a holding period of at least 91 days during the 181-day period beginning on the date that is 90 days before the date on which the stock becomes ex-dividend as to that dividend to be eligible. Capital gain dividends distributed to a Fund from other RICs are not eligible for the dividends-received deduction. To qualify for the deduction, corporate shareholders must meet the minimum holding period requirement stated above with respect to their Shares, taking into account any holding period reductions from certain hedging or other transactions or positions that diminish their risk of loss with respect to their Shares, and, if they borrow to acquire or otherwise incur debt attributable to Shares, they may be denied a portion of the dividends-received deduction with respect to those Shares.

Although dividends generally will be treated as distributed when paid, any dividend declared by a Fund in October, November or December and payable to shareholders of record in such a month that is paid during the following January will be treated for U.S. federal income tax purposes as received by shareholders on December 31 of the calendar year in which it was declared.

U.S. individuals with adjusted gross income (subject to certain adjustments) exceeding certain threshold amounts (\$250,000 if married filing jointly or if considered a "surviving spouse" for federal income tax purposes, \$125,000 if married filing separately, and \$200,000 in other cases) are subject to a 3.8% Medicare contribution tax on all or a portion of their "net investment income," which includes taxable interest, dividends, and certain capital gains (generally including capital gain distributions and capital gains realized on the sale of Shares). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

Shareholders who have not held Shares for a full year should be aware that a Fund may report and distribute, as ordinary dividends or capital gain dividends, a percentage of income that is not equal to the percentage of the Fund's ordinary income or net capital gain, respectively, actually earned during the applicable shareholder's period of investment in the Fund. A taxable shareholder may wish to avoid investing in a Fund shortly before a dividend or other distribution, because the distribution will generally be taxable even though it may economically represent a return of a portion of the shareholder's investment.

To the extent that a Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If a Fund's distributions exceed its earnings and profits, all or a portion of the distributions made for a taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable, but will reduce each shareholder's cost basis in a Fund and result in a higher capital gain or lower capital loss when the Shares on which the distribution was received are sold. After a shareholder's basis in the Shares has been reduced to zero, distributions in excess of earnings and profits will be treated as gain from the sale of the shareholder's Shares.

Taxation of Shareholders – Sale of Shares. A sale, redemption, or exchange of Shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if Shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Shares will generally be treated as short-term capital gain or loss. Any loss realized upon a taxable disposition of Shares held for six months or less will be treated as long-term capital loss, rather than short-term capital loss, to the extent of any amounts treated as distributions to the shareholder of long-term capital gain (including any amounts credited to the shareholder as undistributed capital gains). All or a portion of any loss realized upon a taxable

disposition of Shares may be disallowed if substantially identical Shares are acquired (through the reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the disposition. In such a case, the basis of the newly acquired Shares will be adjusted to reflect the disallowed loss.

The cost basis of Shares acquired by purchase will generally be based on the amount paid for Shares and then may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares. Contact the broker through whom you purchased your Shares to obtain information with respect to the available cost basis reporting methods and elections for your account.

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units. The ability of Authorized Participants to receive a full or partial cash redemption of Creation Units of a Fund may limit the tax efficiency of such Fund. The Internal Revenue Service ("IRS"), however, may assert that a loss realized upon an exchange of securities for Creation Units cannot currently be deducted under the rules governing "wash sales" (for a person who does not mark-to-market its portfolio) or on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will generally be treated as short-term capital gains or losses. Any loss upon a redemption of Creation Units held for six months or less may be treated as long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gain with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

The Trust, on behalf of the Funds, has the right to reject an order for Creation Units if the purchaser (or a group of purchasers) would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares and if, pursuant to Section 351 of the Code, a Fund would have a basis in the deposit securities different from the market value of such securities on the date of deposit. The Trust also has the right to require the provision of information necessary to determine beneficial Share ownership for purposes of the 80% determination. If a Fund does issue Creation Units to a purchaser (or a group of purchasers) that would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding Shares, the purchaser (or a group of purchasers) will not recognize gain or loss upon the exchange of securities for Creation Units.

Persons purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rule applies and when a loss may be deductible.

Taxation of Fund Investments. The Funds may invest in debt obligations that are in the lowest rating categories or that are unrated, including debt obligations of issuers not currently paying interest or that are in default. Investments in debt obligations that are at risk of or are in default present special tax issues for a Fund. Federal income tax rules are not entirely clear about issues such as when a Fund may cease to accrue interest, original issue discount or market discount, when and to what extent deductions may be taken for bad debts or worthless securities, how payments received on obligations in default should be allocated between principal and interest and whether certain exchanges of debt obligations in a workout context are taxable. These and other issues will be addressed by a Fund, in the event it invests in or holds such securities, to seek to ensure that it distributes sufficient income to preserve its status as a RIC and does not become subject to U.S. federal income or excise tax.

Investments by a Fund in zero coupon or other discount securities will result in income to the Fund equal to a portion of the excess face value of the securities over their issue price (the "original issue discount" or "OID") each year that the securities are held, even though the Fund may receive no cash interest payments or may receive cash interest payments that are less than the income recognized for tax purposes. In other circumstances, whether pursuant to the terms of a security or as a result of other factors outside the control of a Fund, the Fund may recognize income without receiving a commensurate amount of cash. Such income is included in determining the amount of income that a Fund must distribute to maintain its eligibility for treatment as a RIC and to avoid the payment of federal income tax, including the nondeductible 4% excise tax described above.

Any market discount recognized on a market discount bond is taxable as ordinary income. A market discount bond is a bond acquired in the secondary market at a price below redemption value or below adjusted issue price if issued with original issue discount. Absent a Fund's election to include the market discount in income as it accrues, gain on the Fund's disposition of such an obligation will be treated as ordinary income rather than capital gain to the extent of the accrued market discount. Where the income required to be recognized as a result of the OID and/or market discount rules is not matched by a corresponding cash receipt by a Fund, the Fund may be required to borrow money or dispose of securities to enable the Fund to make distributions to its shareholders in order to qualify for treatment as a RIC and eliminate taxes at the Fund level.

Special rules apply to any investments by the Funds in inflation-indexed bonds. Generally, all stated interest on inflation-indexed bonds is taken into income by a Fund under its regular method of accounting for interest income. The amount of any positive inflation adjustment for a taxable year, which results from an increase in the inflation-adjusted principal amount of the bond, is treated as OID. The amount of a Fund's OID in a taxable year with respect to a bond will increase the Fund's taxable income for such year without a corresponding receipt of cash, until the bond matures. As a result, a Fund may need to use other sources of cash to satisfy its distribution requirements for its applicable year. The amount of any negative inflation adjustments, which result from a decrease in the inflation-adjusted principal amount of the bond, first reduces the amount of interest (including stated interest, OID, and market discount, if any) otherwise includable in a Fund's taxable income with respect to the bond for the taxable year; any remaining negative adjustments will be either treated as ordinary loss or, in certain circumstances, will be carried forward to reduce the amount of interest income taken into account with respect to the bond in future taxable years.

Certain of a Fund's investments may be subject to complex provisions of the Code (including provisions relating to hedging transactions, straddles, integrated transactions, foreign currency contracts, forward foreign currency contracts, and notional principal contracts) that, among other things, may affect a Fund's ability to qualify as a RIC, affect the character of gains and losses realized by the Fund (e.g., may affect whether gains or losses are ordinary or capital), accelerate recognition of income to the Fund and defer losses. These rules could therefore affect the character, amount and timing of distributions to shareholders. These provisions also may require a Fund to mark to market certain types of positions in its portfolio (i.e., treat them as if they were closed out) which may cause the Fund to recognize income without the Fund receiving cash with which to make distributions in amounts sufficient to enable the Fund to satisfy the RIC distribution requirements for avoiding income and excise taxes. A Fund intends to monitor its transactions, intends to make appropriate tax elections, and intends to make appropriate entries in its books and records in order to mitigate the effect of these rules and preserve the Fund's qualification for treatment as a RIC. To the extent a Fund invests in an underlying fund that is taxable as a RIC, the rules applicable to the tax treatment of complex securities will also apply to the underlying funds that also invest in such complex securities and investments.

Foreign Investments. Dividends and interest received by a Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties between certain countries and the U.S. may reduce or eliminate such taxes. Each Fund does not expect to satisfy the requirements for passing through to its shareholders any share of foreign taxes paid by the Fund, with the result that shareholders will not include such taxes in their gross incomes and will not be entitled to a tax deduction or credit for such taxes on their own tax returns.

If more than 50% of the value of a Fund's assets at the close of any taxable year consists of stock or securities of foreign corporations, which for this purpose may include obligations of foreign governmental issuers, the Fund may elect, for U.S. federal income tax purposes, to treat any foreign income or withholding taxes paid by the Fund as paid by its shareholders. For any year that a Fund is eligible for and makes such an election, each shareholder of the Fund will be required to include in income an amount equal to his or her allocable share of qualified foreign income taxes paid by the Fund, and shareholders will be entitled, subject to certain holding period requirements and other limitations, to credit their portions of these amounts against their U.S. federal income tax due, if any, or to deduct their portions from their U.S. taxable income, if any. No deductions for foreign taxes paid by a Fund may be claimed, however, by non-corporate shareholders who do not itemize deductions. No deduction for such taxes will be permitted to individuals in computing their alternative minimum tax liability. Foreign taxes paid by a Fund will reduce the return from the Fund's investments.

Foreign tax credits, if any, received by a Fund as a result of an investment in another RIC (including an ETF or underlying fund which is taxable as a RIC) will not be passed through to you unless the Fund qualifies as a "qualified fund-of-funds" under the Code. If a Fund is a "qualified fund-of-funds" it will be eligible to file an election with the IRS that will enable the Fund to pass along these foreign tax credits to its shareholders. A Fund will be treated as a "qualified fund-of-funds" under the Code if at least 50% of the value of such Fund's total assets (at the close of each quarter of the Fund's taxable year) is represented by interests in other RICs.

If a Fund holds shares in a "passive foreign investment company" ("PFIC"), it may be subject to U.S. federal income tax on a portion of any "excess distribution" or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its shareholders. Additional charges in the nature of interest may be imposed on a Fund in respect of deferred taxes arising from such distributions or gains.

Each Fund may be eligible to treat a PFIC as a "qualified electing fund" ("QEF") under the Code in which case, in lieu of the foregoing requirements, the Fund will be required to include in income each year a portion of the ordinary earnings and net capital gains of the qualified electing fund, even if not distributed to the Fund, and such amounts will be subject to the 90% and excise tax distribution requirements described above. To make this election, a Fund would be required to obtain certain annual information from the PFICs in which it invests, which may be difficult or impossible to obtain. Alternatively, a Fund may make a mark-to-market election that will result in such Fund being treated as if it had sold and repurchased its PFIC stock at the end of each year. In such case, a Fund would report any gains resulting from such deemed sales as ordinary income and would deduct any losses resulting from such deemed sales as ordinary losses to the extent of previously recognized gains. The election must be made separately for each PFIC owned by a Fund and, once made, is effective for all subsequent taxable years, unless revoked with the consent of the IRS. By making the election, a Fund could potentially ameliorate the adverse tax consequences with respect to its ownership of shares in a PFIC, but in any particular year may be required to recognize income in excess of the distributions it receives from PFICs and its proceeds from dispositions of PFIC stock. A Fund may have to distribute this excess income to satisfy the 90% distribution requirement and to avoid

imposition of the 4% excise tax. To distribute this income and avoid a tax at the fund level, a Fund might be required to liquidate portfolio securities that it might otherwise have continued to hold, potentially resulting in additional taxable gain or loss. Amounts included in income each year by a Fund arising from a QEF election, will be “qualifying income” under the Qualifying Income Requirement (as described above) even if not distributed to the Fund, if the Fund derives such income from its business of investing in stock, securities or currencies.

Additional Tax Information Concerning REITs. The Funds may invest in entities treated as REITs for U.S. federal income tax purposes.

A Fund may invest in REITs. Investments in REIT equity securities may require a Fund to accrue and distribute income not yet received. To generate sufficient cash to make the requisite distributions, a Fund may be required to sell securities in its portfolio (including when it is not advantageous to do so) that it otherwise would have continued to hold. A Fund’s investments in REIT equity securities may at other times result in a Fund’s receipt of cash in excess of the REIT’s earnings; if a Fund distributes these amounts, these distributions could constitute a return of capital to such Fund’s shareholders for federal income tax purposes. Dividends paid by a REIT, other than capital gain distributions, will be taxable as ordinary income up to the amount of the REIT’s current and accumulated earnings and profits. Capital gain dividends paid by a REIT to a Fund will be treated as long-term capital gains by the Fund and, in turn, may be distributed by the Fund to its shareholders as a capital gain distribution. Dividends received by a Fund from a REIT generally will not constitute qualified dividend income or qualify for the dividends received deduction. If a REIT is operated in a manner such that it fails to qualify as a REIT, an investment in the REIT would become subject to double taxation, meaning the taxable income of the REIT would be subject to federal income tax at the regular corporate rate without any deduction for dividends paid to shareholders and the dividends would be taxable to shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the REIT’s current and accumulated earnings and profits.

REITs in which a Fund invests often do not provide complete and final tax information to the Funds until after the time that the Funds issue a tax reporting statement. As a result, a Fund may at times find it necessary to reclassify the amount and character of its distributions to you after it issues your tax reporting statement. When such reclassification is necessary, you will be sent a corrected, final Form 1099-DIV to reflect the reclassified information. If you receive a corrected Form 1099-DIV, use the information on this corrected form, and not the information on the previously issued tax reporting statement, in completing your tax returns.

The Tax Act treats “qualified REIT dividends” (*i.e.*, ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income eligible for capital gain tax rates) as eligible for a 20% deduction by non-corporate taxpayers. This deduction, if allowed in full, equates to a maximum effective tax rate of 29.6% (37% top rate applied to income after 20% deduction). Pursuant to recently proposed regulations on which the Funds may rely, distributions by a Fund to its shareholders that are attributable to qualified REIT dividends received by such Fund and which such Fund properly reports as “section 199A dividends,” are treated as “qualified REIT dividends” in the hands of non-corporate shareholders. A section 199A dividend is treated as a qualified REIT dividend only if the shareholder receiving such dividend holds the dividend-paying RIC shares for at least 46 days of the 91-day period beginning 45 days before the shares become ex-dividend, and is not under an obligation to make related payments with respect to a position in substantially similar or related property. A Fund is permitted to report such part of its dividends as section 199A dividends as are eligible, but is not required to do so.

Backup Withholding. Each Fund will be required in certain cases to withhold (as “backup withholding”) on amounts payable to any shareholder who (1) fails to provide a correct taxpayer identification number certified under penalty of perjury; (2) is subject to backup withholding by the IRS for failure to properly report all payments of interest or dividends; (3) fails to provide a certified statement that he or she is not subject to “backup withholding”; or (4) fails to provide a certified statement that he or she is a U.S. person (including a U.S. resident alien). The backup withholding rate is currently 24%. Backup withholding is not an additional tax and any amounts withheld may be credited against the shareholder’s ultimate U.S. tax liability. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax on shareholders who are neither citizens nor permanent residents of the U.S.

Non-U.S. Shareholders. Any non-U.S. investors in a Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Foreign shareholders (*i.e.*, nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to U.S. withholding tax at the rate of 30% (or a lower tax treaty rate) on distributions derived from taxable ordinary income. Each Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of Shares generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from a Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Unless certain non-U.S. entities that hold Shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to Fund distributions payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the U.S. and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

For foreign shareholders to qualify for an exemption from backup withholding, described above, the foreign shareholder must comply with special certification and filing requirements. Foreign shareholders in a Fund should consult their tax advisors in this regard.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, individual retirement accounts, salary deferral arrangements, 401(k) plans, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income (“UBTI”). Tax-exempt entities are not permitted to offset losses from one unrelated trade or business against the income or gain of another unrelated trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, each Fund generally serves to block UBTI from being realized by its tax-exempt shareholders with respect to their shares of Fund income. However, notwithstanding the foregoing, tax-exempt shareholders could realize UBTI by virtue of their investment in a Fund if, for example, (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits (“REMICs”), (ii) the Fund invests in a REIT that is a taxable mortgage pool (“TMP”) or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) Shares constitute debt-financed property in the hands of the tax-exempt shareholders within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisers. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult with their tax advisers regarding these issues.

Certain Potential Tax Reporting Requirements. Under U.S. Treasury regulations, if a shareholder recognizes a loss on disposition of Shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on IRS Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer’s treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Other Issues. In those states which have income tax laws, the tax treatment of a Fund and of Fund shareholders with respect to distributions by the Fund may differ from federal tax treatment.

Certain Foreign Currency Tax Issues. A Fund’s transactions in foreign currencies and forward foreign currency contracts will generally be subject to special provisions of the Code that, among other things, may affect the character of gains and losses realized by the Fund (*i.e.*, may affect whether gains or losses are ordinary or capital), accelerate recognition of income to the Fund and defer losses. These rules could therefore affect the character, amount and timing of distributions to shareholders. These provisions also may require a Fund to mark-to-market certain types of positions in its portfolio (*i.e.*, treat them as if they were closed out) which may cause the Fund to recognize income without receiving cash with which to make distributions in amounts necessary to satisfy the Distribution Requirements and for avoiding the excise tax described above. The Funds intend to monitor their transactions, intend to make the appropriate tax elections, and intend to make the appropriate entries in their books and records when they acquire any foreign currency or forward foreign currency contract in order to mitigate the effect of these rules so as to prevent disqualification of a Fund as a RIC and minimize the imposition of income and excise taxes.

FINANCIAL STATEMENTS

The [Annual Report](#) for the Funds for the fiscal year ended August 31, 2020 is a separate document and the financial statements and accompanying notes appearing therein are incorporated by reference into this SAI. You may request a copy of the Funds’ Annual Report at no charge by calling 1-800-617-0004 or through the Funds’ website at www.videntfunds.com.

Appendix A

VIDENT ADVISORY, LLC PROXY VOTING POLICIES AND PROCEDURES

Background

An investment adviser has a duty of care and loyalty to its Clients with respect to monitoring corporate events and exercising proxy authority in the best interests of such Clients. VA will adhere to Rule 206(4)-6 under the Advisers Act and all other applicable laws and regulations in regard to the voting of proxies.

Policies and Procedures

ESS has delegated the responsibility for voting proxies relating to the Funds' portfolio securities to VA. VA has adopted these policies and procedures to determine how to vote proxies relating to portfolio securities held by the Funds. The policies and procedures are designed to ensure that proxies are voted in the best interests of Fund shareholders, without regard to any relationship that any affiliated person of a Fund (or an affiliated person of such affiliated person) may have with the issuer of the security and with the goal of maximizing value to shareholders consistent with governing laws and the investment policies of each Fund. While securities are not purchased to exercise control or to seek to effect corporate change through share ownership activism, the Funds support sound corporate governance practices within companies in which they invest.

VA has established a Proxy Voting Committee (“Proxy Committee”) that is responsible for overseeing the proxy voting process and ensuring that the voting process is implemented in conformance with these policies and procedures. The following outlines certain key aspects of the policies and procedures relating to the administration of the proxy voting process and how proxies are voted.

Third-Party Proxy Voting Administrator

VA has retained a third-party proxy voting service (“Proxy Voting Administrator”) to assist in the implementation of certain proxy voting-related functions including: providing research on proxy matters; providing technology to facilitate the sharing of research and discussions related to proxy votes; voting proxies in accordance with VA’s proxy voting guidelines; handling certain administrative and reporting items; maintaining records of proxy statements received in connection with proxy votes and provide copies/analyses upon request.

Proxy Voting Committee

The Proxy Committee shall be responsible for overseeing the proxy voting process to ensure its implementation in conformance with these policies and procedures. The Proxy Committee shall also be responsible for overseeing the Proxy Voting Administrator to determine that they are accurately applying these policies and procedures and operating as an independent proxy voting agent. VA’s oversight process of the Proxy Voting Administrator includes an assessment of their policies and procedures, including conflict controls and monitoring, receipt and review of routine performance-related reporting periodic due diligence meetings. Due diligence meetings typically include: meetings with key staff, policies and procedures related presentations and discussions, technology-related demonstrations and assessments, and some sample testing, if appropriate. The Proxy Committee shall review the continuing appropriateness of these policies and procedures.

Voting Procedures

Unless otherwise required by applicable law, proxies will be voted by the Proxy Committee in accordance with VA’s custom proxy voting.

Proxy Voting Principles/Guidelines

VA has adopted Vident Advisory Proxy Voting Principles/Guidelines which is a separate stand-alone document incorporated by reference into these policies and procedures.

Voting Discretion

In all cases, the Proxy Committee will exercise its voting discretion in accordance with the voting philosophy of the Vident Advisory Proxy Voting Principles/Guidelines. In cases where a proxy item is forwarded by the Proxy Voting Administrator to the Proxy Committee, the Proxy Committee may be assisted in its voting decision through receipt of: (i) independent research and voting recommendations provided by the Proxy Voting Administrator or other independent sources; (ii) input from the sub-adviser responsible for purchasing the security; and (iii) information provided by company management and shareholder groups.

Index Provider and Sub-Adviser Input

The Proxy Committee may consult with VF's Index Policy Committee or VIA's portfolio management team on specific proxy voting issues, as it deems appropriate. In addition, VF's Index Policy Committee or VIA's portfolio management team may proactively make recommendations to the Proxy Committee regarding any proxy voting issue. In this regard, the process takes into consideration expressed views of VF's Index Policy Committee and VIA's portfolio management team given their deep knowledge of investee companies.

Consistent Voting

Proxies will be voted consistently on the same matter when securities of an issuer are held by multiple Funds.

Fund Voting Reporting Coordination

Voting decisions made by the Proxy Committee on behalf of the Funds will be reported to the Proxy Voting Administrator to ensure that votes are registered in a timely manner and included in Form N-PX reporting.

Practical Limitations to Proxy Voting

While VA uses its reasonable best efforts to vote proxies, in certain circumstances, it may be impractical or impossible for VA to vote proxies (e.g., limited value or unjustifiable costs).

Securities on Loan

As a general matter, securities on loan will not be recalled to facilitate proxy voting (in which case the borrower of the security shall be entitled to vote the proxy). However, as it relates to portfolio holdings of the Funds, if the Proxy Committee is aware of an item in time to recall the security and has determined in good faith that the importance of the matter to be voted upon outweighs the loss in lending revenue that would result from recalling the security (e.g., if there is a controversial upcoming merger or acquisition, or some other significant matter), the security will be recalled for voting.

Share Blocking

Proxy voting in certain countries requires 'share blocking'. Shareholders wishing to vote their proxies must deposit their shares with a designated depository before the date of the meeting. Consequently, the shares may not be sold in the period preceding the proxy vote. Absent compelling reasons, VA believes that the benefit derived from voting these shares is outweighed by the burden of limited trading. Therefore, if share blocking is required in certain markets, VA may not participate and refrain from voting proxies for those Funds impacted by share blocking.

Conflicts of Interest

VA may have a conflict of interest regarding a proxy to be voted upon if, for example, VA or its affiliates have other relationships with the issuer of the proxy. In most instances, conflicts of interest are avoided through a strict and objective

application of the voting guidelines. However, when the Proxy Voting Administrator is aware of a material conflict of interest regarding a matter that would otherwise require a vote by the Proxy Committee or that, in the determination of the Proxy Committee, otherwise warrants the taking of additional steps to mitigate the conflict, the Proxy Committee or the Proxy Voting Administrator shall address the material conflict by using any of the following methods:

1. Instructing the Proxy Voting Administrator to vote in accordance with the recommendation it makes to its other clients;
2. With respect to any matters involving a portfolio holding of the Funds, disclosing the conflict to the Funds' board and obtaining its consent before voting with respect to shares held by the Funds;
3. Engaging an independent fiduciary who will direct the Proxy Committee how to vote on such matter
4. Consulting with outside legal counsel for guidance on resolution of the conflict of interest;
5. Erecting information barriers around the person or persons making voting decisions;
6. Voting in proportion to other shareholders ("mirror voting"); or
7. Voting in other ways that are consistent with VA's obligation to vote in the best interests of its shareholders.

The Proxy Committee will not permit its votes to be influenced by any conflict of interest that exists for any other affiliated person of VA (such as a sub-adviser or principal underwriter) or any affiliated persons of such affiliated persons and the Proxy Committee will vote all such matters without regard to the conflict.

Information regarding how the Funds voted proxies relating to portfolio securities held during the most recent 12-month period ended June 30 is available on the SEC's Web site at sec.gov.
